FICTION

A Dubai balloon festival is attacked by the worst social engineering exploit the world has ever seen. Pilots die. Local politics get disrupted. Everyone blames AI. Manos Manu must follow his models—wherever they lead...

DESERT BALLOONS:

The Machine Murders, book 2

by **CJ Abazis**, translated to English by **Kalliopy Paleos**

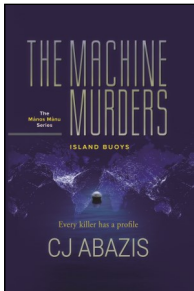

Manos Manu, an Interpol data scientist, arrives in the United Arab Emirates to solve a series of impossible murders that have shaken the Middle East.

Interpol's Singapore back office has proven world-class, with a machine learning team of the best engineers from around the globe—including Manos' girlfriend Mei. Tested under pressure in the field, his custom system is nothing short of brilliant.

But this time, his arch-nemesis is not simply a killer. Not even a web of determined developers, scattered across the world.

His enemy is his very own nature.

Also in the series

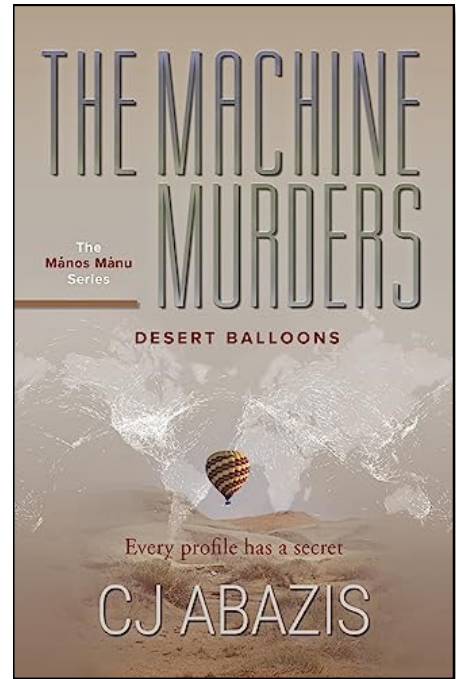

“The world of traditional crime solving and that of Manu will clash in this cosmopolitan novel, a mystery thriller that combines technology and action. Nice style, sharp dialogues, narrative comfort, and a model of machine learning that can find the murderer...or even more than one.” – **Kyriakos Athanasiadis**, *Kathimerini Newspaper*

CJ Abazis manages a software company in Athens, Greece. *The Island Buoys* is the first novel in *The Machine Murders* series. He has previously written bestselling novels that were published by prominent Greek publishing houses.

Three women work to uncover the scorching lies and scandal behind a self-help movement, igniting a powder keg of secrets that could blow their town apart, in this suspense novel perfect for readers who love Southern mystery

WATCH IT BURN
by Kristen Bird

It's early morning in the small Texas town of Edenberg when the body of 65-year-old Beverly Hoffman is discovered in the Guadalupe River—drowned in only two inches of water.

After elementary school teacher Nichole Miller discovers the woman's body, she makes two phone calls: first to the police, who call Beverly's death a slip and fall, and second to her best friend, journalist Jenny Martin. Jenny is attempting to revive her flailing marriage and her all-but-DOA career, and she knows foul play when she sees it. The two women enlist the help of Beverly's daughter-in-law, Robin, who's eager to expose the truth.

Beverly had been beloved in the tight-knit community, having cofounded the wildly popular personal-development company Genetive, Inc., alongside her influential husband. But something sinister has been smoldering beneath the surface of their picturesque hometown. And Genetive is at the center of it all.

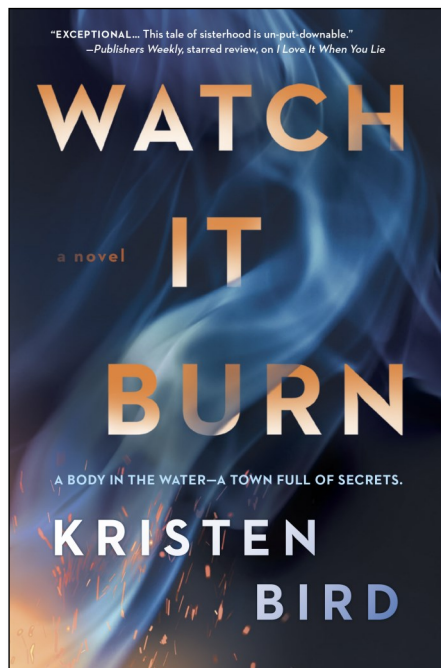

"A master at weaving tales of strong Southern women and sticky atmosphere, Kristen Bird is back with her darkest book yet. *Watch It Burn* is an enthralling look at how toxic ideologies can impact families and communities in a way that will haunt you for days after reading." – **Olivia Day, host of Thrillers by the Bookclub Pod**

"NXIVM meets Southern suspense in *Watch It Burn*, a propulsive dive into a self-help group with disturbing secrets and a growing hold over a small Texas town. Gripping, timely, and ominous, this one is not to be missed." – **Allison Buccola, author of *Catch Her When She Falls***

"Southern scandal and a small town punctured by violence, *Watch It Burn* is fast-paced crime fiction at its absolute finest." – **Chandler Baker, *New York Times* bestselling author of *Whisper Network***

A unique take on dark academia, featuring everyone's favorite vulpine sleuth, Vera Vixen

**SUMMERS END:
Shady Hollow, book 5
by Juneau Black**

It's late August in Shady Hollow, and the heat has intrepid reporter Vera Vixen eager to get away. She agrees to chaperone the annual field trip to Summers End, an ancient tomb built by an early woodland culture, along with her good friend Lenore Lee.

But when the two enter the tomb, they find bones that are distinctly more...modern. Digging a little deeper, Vera and Lenore discover that the deceased was involved in a recent excavation at the site, and very unpopular with their colleagues. Now the fox and raven have to delve into the dark world of academia and archaeology to determine which creature thought they were clever enough to get away with the perfect murder.

"Black's books...have become my favorite new comfort reads. The plotting is sharp, the prose lean and the atmosphere pure joy. Vixen and the rest of the critters never feel like anthropomorphic Disney cartoon characters. I eagerly await a fresh infusion of Shady Hollow mayhem."

With a terrific twist ending, *The Bachelorette Party* will appeal to fans of Ruth Ware's *In a Dark, Dark Wood*

THE BACHELORETTE PARTY
by Sandra Block

Alex is getting married soon, and her best friends have big plans—a bachelorette sleepover at a “haunted” hunting lodge, the site of the famous 666 killing. As an intern at *Dateline*, Alex just so happens to be doing a ten-year anniversary profile on the killer. He has claimed innocence all along, and her own investigation has stirred up doubts, making her wonder if the “real killer” might still be out there after all.

Getting caught in a blizzard, Alex and her friends still make the most of the unique sleepover until...Alex wakes up outside in the bitter cold, her hands covered in blood. Running back to the lodge, she finds her friends missing and blood everywhere, but does not remember a thing. With her dangerous sleepwalking episodes, Alex fears the night of debauchery might have pushed her over the edge, but what exactly happened and where are her friends? With no cell phone, she digs out a map and compass to seek aid. But the old woman at a nearby farmhouse seems more sinister than helpful, and the man who picks her up hitch-hiking turns out to be no savior. With a killer on the loose, Alex must use her wits not only to find her friends, but to survive. She will soon find out that all is not as it seems. And the murder from a decade ago has come back to haunt her, turning her dream party into a nightmare.

Bewildered, I look closer. For a confused second, I think they are not mine. They must be someone else's hands. But with horror, I realize they are my hands. They are attached to my wrists. My wrists attached to my arms. My arms attached to my body. Me.
Yes, they must be my hands. And I have dipped them in something. In the brash moonlight, I can see it. Not from the shower, not sweat. Not ice. Not snow.
My hands are covered in blood.

For fans of *The Midnight Library* and *Demon Copperhead* comes a breathtaking story of magical realism about two sisters, deeply tied to their small Southern town, fighting to break free of the darkness swallowing the land—and its endless cycle of pecan harvests—whole

THE PECAN CHILDREN
by Quinn Connor

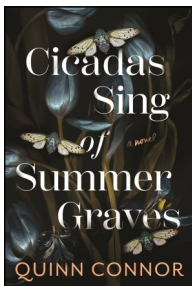

How long will you hold on when your world is gone?

In a small southern pecan town, the annual harvest is a time of both celebration and heartbreak. Even as families are forced to sell their orchards and move away, Lil Clearwater, keeper of a secret covenant with her land, swears she never will. When her twin Sasha returns to the dwindling town in hopes of reconnecting with the girl her heart never forgot, the sisters struggle to bridge their differences and share the immense burden of protecting their home from hungry forces intent on uprooting everything they love.

But there is rot hiding deep beneath the surface. Ghostly fires light up the night, and troubling local folklore is revealed to be all too true. Confronted with the phantoms of their pasts and the devastating threat to their future, the sisters come to the stark realization that in the kudzu-choked South, nothing is ever as it appears.

A story of the love between sisters, and an allegory of decay in small-town America, *The Pecan Children* walks the line between beauty and horror.

For fans of *The Silent Patient*, Mike Omer, and Freida McFadden

THE PATIENT'S SECRET
by S.A. Falk

After a decade-long manhunt for the Blue River Strangler, prosecutors finally have the evidence they need to convict the accused, Kevin Blackford. The only thing standing in the way is Blackford's insanity defense. Hoping to prove otherwise, the prosecutor hires renowned forensic psychiatrist, Dr. Sharon Stevenson, to demonstrate Blackford's culpability.

But things take a sharp turn when Dr. Stevenson makes a startling discovery about Blackford; he suffers from Dissociative Identity Disorder (Multiple Personality Disorder as it once was called). One of the most controversial disorders yet to be seen by Dr. Stevenson, she becomes fascinated by Blackford's four distinct and legitimate personalities as she delves into the maze of the killer's psychosis.

With public pressure mounting, the prosecutor refuses to believe Blackford has such a rare condition, and hires another psychiatrist who determines Blackford is faking his condition. With her career on the line, Dr. Stevenson must prove not only that Kevin Blackford is insane, but also that she herself has not become a pawn in the killer's game of cat and mouse.

S.A. Falk has been captivated by the criminal mind since he was a teenager. From 2007 to 2012, Steve studied Psychology, Neuroscience, and Criminology. To further gain experience in the field, Falconi worked as a mental health counselor at a residential treatment facility for children who were victims of physical and/or sexual abuse.

This experience inspired him to redirect the focus of his career and pursue work with young people. After earning a Bachelor's degree in Psychology & Neuroscience, Steve wanted to combine his passion for counseling children with his long-time love of literature by becoming a high school English teacher. He continued his education and received a Master's degree in Secondary Education in 2015. P.I. Billie Levine sets her sights on stopping a killer who is tying up loose ends—Billie being one of them

DEVIL IN PROFILE:

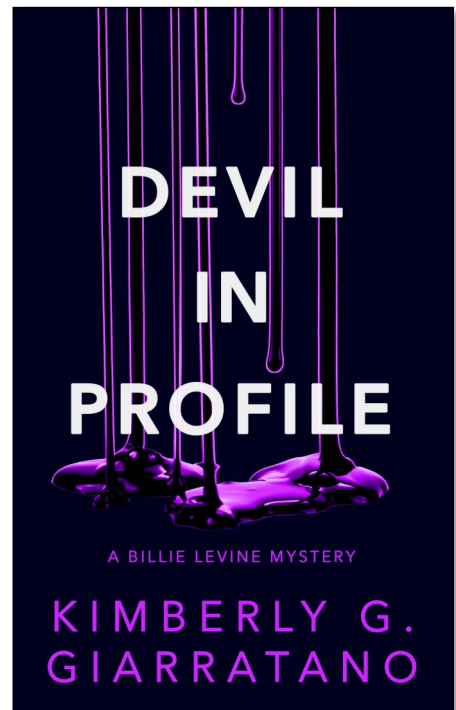

A Billie Levine mystery, book 2
by Kimberly G. Giarratano

Unlicensed P.I. Billie Levine is trying to bank some extra cash, so she picks up hours working as a process server for another investigative firm. Mindless and mostly 9 to 5, Billie is content to simply hand over court documents until, during a routine stakeout, she stumbles upon the corpse of an elderly man, an art collector with ties to Nazi Germany.

Compared to Billie, the dead man has it easy. Billie is feeling on edge lately. Maybe it's because her father is insisting his estranged kids come to his wedding in Sedona, or that David is making plans to move out, or that a smug teaching assistant is getting underfoot on her latest case.

Although, it's possible she could use the help when the cops zero in on Billie's boyfriend, Aaron, and his connections to an international art ring. Turns out, Aaron's stint in Israel has left him with more than just a thick scar across his neck. The woman he screwed over wants revenge, and she's determined to leverage Billie's murder case to get it.

With the detectives focused on Aaron, Billie sets her sights on stopping a killer who is tying up loose ends—Billie being one of them.

A blistering, thought-provoking climate fantasy that combines the sociopolitical dynamics of *Jade City* and the gritty worldbuilding of *The Fifth Season*

AND THE SKY BLEED
by S. Hati

Amid the chaos of a dying city ruled by colonizers, three rivals—a thief, a slumlord, and an heiress—race to find a hidden cache of magic that will decide the city’s fate.

In the occupied city of Tejomaya, calor—a magical fossil fuel—is found only in the blood rains that fall from the sky. While a six-month drought has brought Tejomaya to a desperate standstill, rumors of a secret stash of magic propel three unlikely treasure seekers to risk everything.

Tenacious and street-smart Zain Jatav has been forced to steal calor for her slumlord bosses for years. Finding the magic reserve might be her only key to freedom. But she’ll have to contend with Iravan Khotar, a slumlord himself and an ambitious revolutionary hoping to use the same magic to save his people from the mysterious illness devastating the slums—and to bolster a fight against their oppressors. Meanwhile, heiress Anastasia Drakos leads the ruling council of Tejomaya from the safety of a nearby island. With the hidden magic, she could finally take full control of the city and crush the slums beneath her unyielding fist.

As Zain, Iravan, and Anastasia draw closer to finding the treasure they seek, their paths tangle, and not for the first time—they’ve met before, a decade ago, in a fire that destroyed each of their lives in different ways. Their reunion might bring the already weakened city to its knees. Exploring the devastating mechanisms of power, this searing climate fantasy breathes life into a crumbling world poised on the brink of total destruction.

The latest novel in the action-packed historical mystery series featuring Verity Kent, fashionable former Secret Service agent turned intrepid sleuth and high-society darling on her next clandestine mission—from the *USA Today* bestselling author of the *Lady Darby Mysteries*. A treat for fans of Jacqueline Winspear and Susan Ella MacNeal

**THE COLD LIGHT OF DAY:
A Verity Kent Mystery, book 7
by Anna Lee Huber**

June 1920, Ireland: The streets of Dublin seethe with revolution as the Irish Republican Army clashes with British authorities. Roving assassination squads mean nowhere is truly safe, particularly for Verity Kent and her war hero husband, Sidney. Given their celebrity as society darlings and intrepid sleuths, they must tread carefully to go unnoticed—nearly impossible when they are called upon to search for Verity’s fellow spy and friend....

Captain Alec Xavier has seemingly vanished after traveling to Dublin to infiltrate the IRA at its highest levels. Doing her best to maintain a modicum of normalcy and stay under the radar of both the rebels and British Intelligence, Verity works undercover by day and waltzes through the city’s elite social scene by night. Still, she fears the worst for Alec—until shocking evidence mounts that not only is he alive, but that he has switched sides....

Already disillusioned with the British government, the news leaves Verity and Sidney reeling. Worse, they learn of a conspiracy within Dublin Castle, where personal vendettas are being carried out and sanctioned by British Intelligence under the cover of revolution. With the distinction between friend and foe never more blurred—or the margin for error narrower—Verity and Sidney cannot turn a blind eye. Especially when a familiar adversary appears, bringing a threat almost too terrifying to confront—even in the cold light of day....

Friendships, feuds, romance, and unexpected secrets shake up a small community in this sharply funny and compassionate novel by the author of *Five Winters*

PRICKLY COMPANY (previously titled *Hedgehog Highway*)
by Kitty Johnson

Frances Mathews doesn't get out much since her husband died, but that doesn't stop her from jump-starting a campaign to create a hedgehog highway in Hilltop Place—feeding stations, holes at the bottoms of gates and fences, and wild garden areas for hibernation. To Frances's delight, her neighbors are on board. Mostly.

There are Jess and Michael, whose marriage is cracking under the unanticipated strain of a recent adoption. And Ryan, a wounded war reporter struggling to connect with his son after a divorce and forced to return to an exasperating parental fold. Plus, a very forthright single mom new to the neighborhood and an exceedingly proper couple not about to upend their picture-perfect garden for prickly nuisances.

As relationships—from the romantic to the nerve-racking—form and secrets are unearthed, Hilltop Place is threatened in ways that affect them all...unaware hedgehogs included. What Frances and her charitable neighbors soon discover about themselves and each other is hardly what any of them expected.

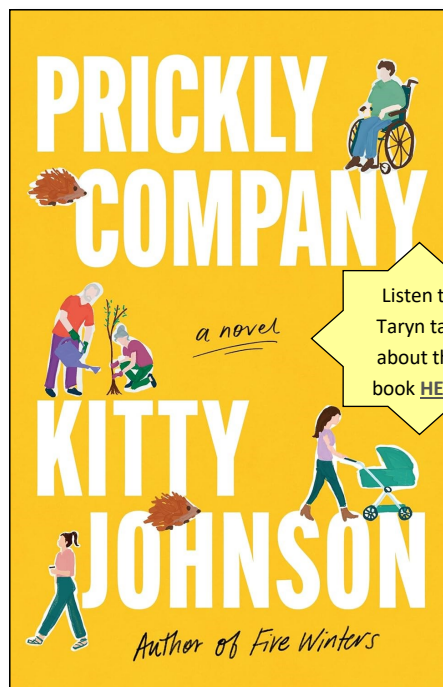

"*Prickly Company* has it all: romance, suspense, intrigue, and a community of quirky characters all learning to help each other. As a bonus, there are lots of lovable, prickly hedgehogs that will have you rethinking your landscaping situation. I loved every page of this book!" – **Maddie Dawson, bestselling author of *Matchmaking for Beginners***

"Bursting with witty dialogue and plenty of hilarious moments, *Prickly Company* will enchant readers from the first page. I adored every quirky character and felt like part of the neighborhood by the end of this smart, funny, and charming novel." – **Kerry Lonsdale, *Wall Street Journal* bestselling author of *Everything We Keep***

When a skeleton uncovered in a former New Zealand gold rush town shows signs of a violent death, forensics expert Alexa Glock is on the case—but there are those who would rather keep the past buried...

THE HUNGRY BONES:
An Alexa Glock Forensics Mystery, book 5
by Sara E. Johnson

Alexa Glock is at a crossroads, personally and professionally.

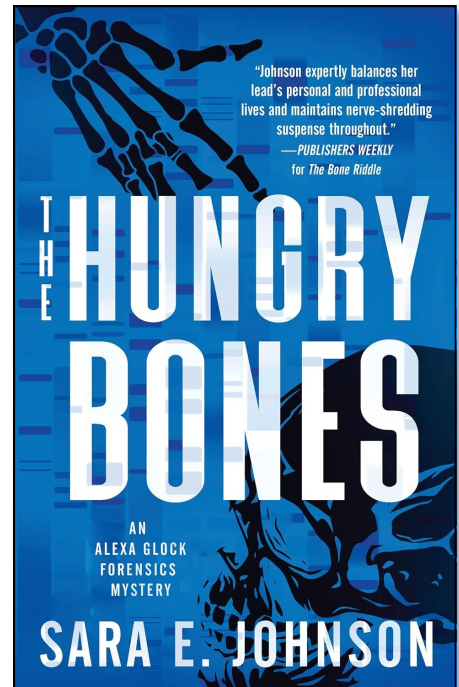

Now that DI Bruce Horne, who said he loved her, won't deny he cheated on his ex-wife, how can Alexa trust he won't cheat on her? She and her abandonment issues need some space, so she throws her hat in the ring for a position far from New Zealand: Abertay University in Scotland. Her professional crush, Dr. Ben Odden, is interested in her expertise in teeth. If he makes an offer, will Alexa bite?

Meanwhile, a human skeleton has been exhumed in a quaint former gold rush town in New Zealand. A benefactor believes that the bones are that of a Chinese gold miner, and she wants to repatriate the "hungry ghost" of her ancestor to China. Alexa is called in to examine the teeth and the secrets they contain. She didn't expect to discover a hole in the skull. When another skeleton is unearthed nearby and also shows evidence of a violent death, Alexa heads to the police station to open a cold case. Then, the town's beloved school principal goes missing. Alexa is quickly recruited to assist with the search, and as she digs into both cases, the secrets she uncovers make her dangerously unpopular with those who want to keep the past buried—and perhaps Alexa along with it.

Sara E. Johnson is a mystery writer who spent nine months exploring wondrous New Zealand. Everywhere she snooped, there was a mystery that needed writing. *The Bone Riddle*, Sara's fourth novel in the *Alexa Glock Forensic Mysteries*, was published in June 2023. From *USA Today* bestselling author Eliza Knight comes an endearing and vivid story told from the unique multi-narrative viewpoints of a young Queen Elizabeth, Hanna Penwyck, the fictionalized Keeper of the Queen's dogs, and Susan, the Queen's Corgi, whose love and loyalty were boundless

THE QUEEN'S FAITHFUL COMPANION

by Eliza Knight

A reigning queen...

Elizabeth wasn't born to be queen. After all, her uncle was the heir. But when he abdicates the throne, and her father steps in as king, everything in Elizabeth's life changes. But there is one thing that never wavers, and that is her endearing love of her Corgis—especially the new puppy Susan, who is gifted to her for her 18th birthday. Susan, a member of the royal household, is by her side during Elizabeth's WWII service, falling in love with Philip and getting married, the death of her father King George VI, her accession to the throne, the birth of her first child, and the early struggles with running a country.

A loyal servant...

Hanna Penwyck has grown up with her family in service to the crown. A little bit awkward, and often feeling alone, she has a connection with nature, animals—and the young princesses at Windsor. Her job is to maintain the health and wellness of the queen's most prized companion—she is the Keeper of the Queen's Corgis. And with Hanna, Elizabeth can open up, and talk about things she finds joy in, such as her dogs, nature, and hunting. Elizabeth is free to be herself, versus a queen who must keep herself at arm's length from everyone.

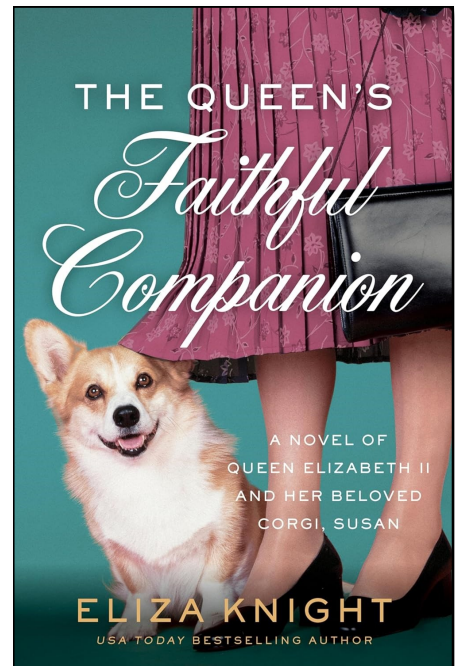

A faithful companion...

From the moment Susan became Elizabeth's, she understood her duty as a royal dog. To remind Elizabeth that she is more than just a queen, she is a human, and that the key to life is not just duty and honor, but connection, family, and unconditional and enduring love. Susan is the keeper of memories, of secrets, and she tries her hardest to help Elizabeth in her times of need. Through Susan we gain a dog's eye view of royal life, human relationships, and the heartwarming bond between a queen and her beloved companion.

Inspired by the legend of Xishi, one of the famous Four Beauties of Ancient China, *A Song to Drown Rivers* is an epic historical fantasy about womanhood, war, sacrifice, and love against all odds as the fate of two kingdoms hangs in a delicate balance.

A SONG TO DROWN RIVERS by Ann Liang

Her beauty hides a deadly purpose.

Xishi's beauty is seen as a blessing to the villagers of Yue—convinced that the best fate for a girl is to marry well and support her family. When Xishi draws the attention of the famous young military advisor, Fanli, he presents her with a rare opportunity: to use her beauty as a weapon. One that could topple the rival neighboring kingdom of Wu, improve the lives of her people, and avenge her sister's murder. All she has to do is infiltrate the enemy palace as a spy, seduce their immoral king, and weaken them from within.

Trained by Fanli in everything from classical instruments to concealing emotion, Xishi hones her beauty into the perfect blade. But she knows Fanli can see through every deception she masters, the attraction between them burning away any falsehoods.

Once inside the enemy palace, Xishi finds herself under the hungry gaze of the king's advisors while the king himself shows her great affection. Despite his gentleness, a brutality lurks and Xishi knows she can never let her guard down. But the higher Xishi climbs in the Wu court, the farther she and Fanli have to fall—and if she is unmasked as a traitor, she will bring both kingdoms down.

A tangled and vivid portrait of the women caught in Picasso's charismatic orbit through the affairs, the scandals, and the art—only this time, *they* hold the brush

PICASSO'S LOVERS
by Jeanne Mackin

The women of Picasso's life are glamorous and elusive, existing in the shadow of his fame—until 1950s aspiring journalist Alana Olson determines to bring one into the light. Unsure of what to expect but bent on uncovering what really lies beneath the canvas, Alana steps into Sara Murphy's well-guarded home to discover a past complicated by secrets and intrigue.

Sara paints a luxurious picture of the French Riviera in 1923, but also a tragic one. The more Sara reveals, the more cracks emerge in Picasso's once-vibrant social circle—and the more Alana feels a disturbing convergence with her own life. Who are these other muses? What became of them? What will become of her?

Desperate to trace the threads, Alana dives into the glittering lives of the past. But to do so she must contend with her own reality, including a strained engagement, the male-dominated world of art journalism, and the rising threat to civil rights in America. With hard truths peeling apart around her, it turns out that the most extraordinary portrait Alana encounters is her own.

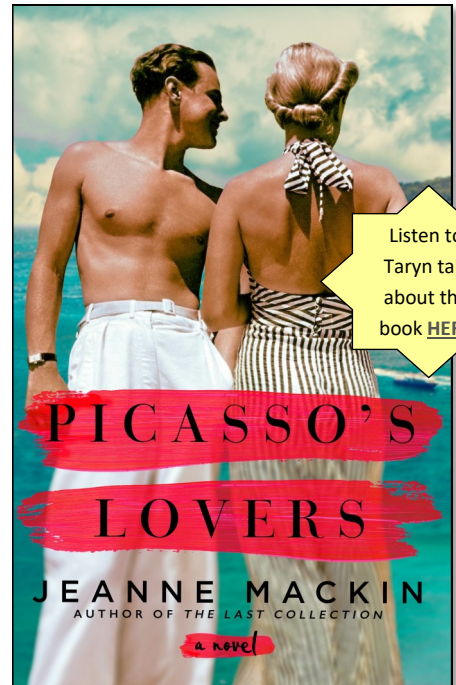

"Mackin paints a bold, sumptuous portrait of a great artist and the women who inspired, frustrated, loved, and loathed him....*Picasso's Lovers* is an epic, sensuous delight!" – **Kate Quinn, *New York Times* bestselling author of *The Alice Network***

A jaw-dropping, twist-filled emotional rollercoaster of a read for fans of *Gone Girl*, *The Perfect Marriage*, and *The Girl on the Train*

A MARRIAGE OF LIES
by Amanda McKinney

Rowan Velky is a reclusive detective, fiercely loyal to both her job and her marriage, although both seem to be falling apart. When a woman is found brutally murdered in an upscale neighborhood, the small town of Blackbird Cove enlists Rowan to find the killer.

Former Marine turned police officer Kellan Palmer is in love. The problem is the woman he is in love with is married. Their passionate affair plays out at a secluded park deep in the woods, until the day a dead body is found nearby.

Amber Bailey, a therapist in the throes of a midlife crisis, finds a notebook filled with the writings of a mad woman. Or are they clues to solve a murder?

There is one other in this story, the cunning spider who weaves the web that connects them all—and will stop at nothing until justice is served.

As boundaries are crossed, secrets are revealed, and loyalties are tested, decisions must be made—regardless of who is destroyed in the process. After all, what goes around comes around.

“Okay. Sorry, I had to ask. What about Mr. Kaing? Was he jealous of your friendship with his wife?”

My question about intimacy has stunned him. He takes a second to compose himself. “Not that I’m aware of. Listen, Detective, I understand your job, but you are going way off track here.”

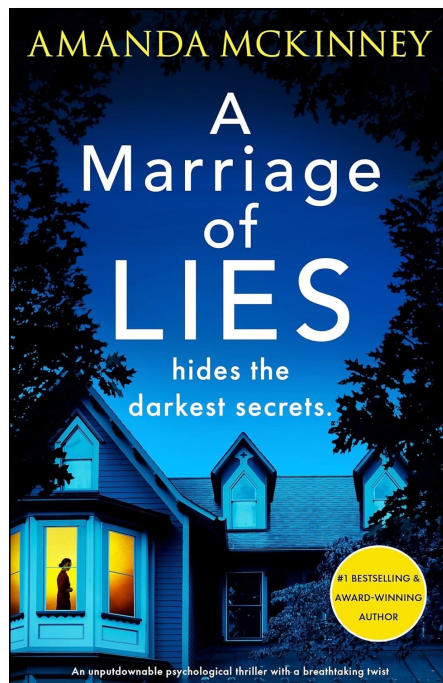

“I understand, and I apologize for the uncomfortable questions. I’m just trying to get every detail I can.”

He swallows deeply. “I understand.”

THE STRANGER
by Kiersten Modglin

Never trust a stranger....

But, late at night and trapped in the middle of nowhere during a terrible snowstorm, Tibby and Walker have no choice.

With roads shutting down and cell towers out, running into each other and deciding to travel together could either be their saving grace or worst mistake. When they're forced to take an unexpected detour and seek refuge in a roadside motel, the storm quickly becomes the least of their worries.

A disturbing discovery in the motel, the questionable actions of the mysterious owner and fellow guests, and a news report about a missing couple in the area set the scene for a terrifying night, but the worst is yet to come.

Each stranger holds a secret...but which one should be trusted?

I'm a firm believer in planning everything, which is probably why I'm feeling out of sorts with this one. It's the first time I've killed someone and let my emotions get involved. Let myself get sloppy.

In this fresh yet familiar gothic tale—part historical fantasy, part puzzlebox mystery—the worlds of Dracula and Sherlock Holmes collide in a thrilling exploration of feminine power

STRANGE BEASTS
by Susan J. Morris

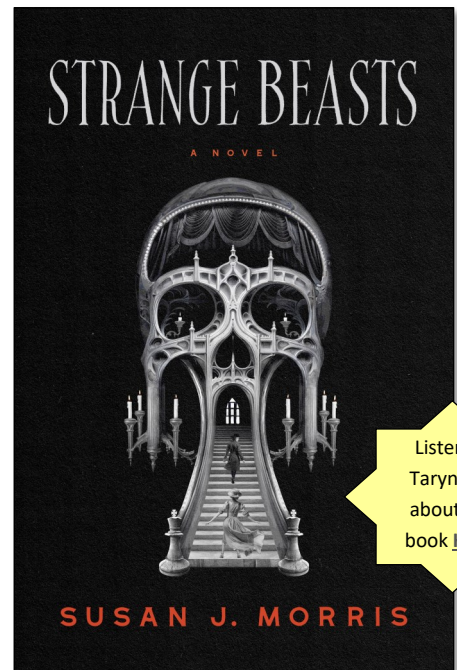

At the dawn of the 20th Century in Paris, Samantha Harker, daughter of Dracula’s killer, works as a researcher for the Royal Society for the Study for Abnormal Phenomena. But no one realizes how abnormal she is. Sam is a channel into the minds of monsters: a power that could help her solve the gruesome deaths plaguing turn-of-the-century Paris—or have her thrown into the asylum.

Sam finds herself assigned to a case with Dr. Helena Moriarty, daughter of the criminal mastermind and famed nemesis of Sherlock Holmes—a notorious detective that no one wants to work with on account of her previous partners’ mysterious murders. As the investigation sweeps them into a race to find and stop “the beast” from its killing rampage, ranging from the elite clubs of Paris to the dark underbelly of the catacombs, Hel and Sam are pitted against men, monsters, and even each other. But beneath their tenuous trust, an unmistakable attraction brews. Is trusting Hel the key to solving the murder, or is Sam yet another pawn in Hel’s game?

She felt the basket jolt as Hel pulled on the rope, and the tension on the rope tightened. The basket rose by inches. The walls of the throat-like passage were so close she could have leaned out and licked them. “You’re going to have to help,” Hel grunted. “The heaviest thing I’ve lifted in years is a dictionary!” Sam babbled. “Then pretend I’m a dictionary.”

Susan J. Morris is a fantasy author and editor, best known for a writing advice column featured on Amazon’s Omnivorous blog and her work editing *Forgotten Realms* novels. Susan delights in running workshops for Clarion West and in moderating panels for writing symposiums. She lives in Sammamish, Washington with her partner, two cats, and entirely too many plants. When not writing, reading, or wading through said plants, Susan indulges in playing video games such as Hades, Oxenfree, and Baldur’s Gate 3, training in Pilates (which is better for her shoulders than jujutsu was), and experimenting with new plant-based food recipes. *Strange Beasts* is her debut novel. <https://susanjmorris.com>

A ripped-from-the-headlines story set in the glossy offices of Silicon Valley startups and NYC new media, *Anna Bright is Hiding Something* explores our fascination with female founders breaking barriers—and sometimes behaving badly in the process

ANNA BRIGHT IS HIDING SOMETHING
by Susie Orman Schnall

Anna Bright is committing fraud. But nobody knows it yet. Not the board of her multibillion-dollar company, BrightLife; not her investors; not the media; not the public breathlessly anticipating the imminent launch of BrightSpot.

Jamie Roman, a hardworking journalist for BusinessBerry, is, no surprise, in awe of Anna: her company's billion-dollar valuation, her polished confidence, and her hustle. But when Jamie learns about Anna's misconduct, she embarks on a bicoastal journey to expose the crimes in the hope of making a name for herself as a journalist. It's not long before Anna learns what the young reporter is up to, however—and she'll do anything to stop Jamie, especially now that BrightLife's IPO is days away.

With news of the deceit about to break, each woman will risk everything for her version of the truth...and only one will emerge unscathed.

"Timely, gripping, and meticulously researched, *Anna Bright* knocked my socks off. It's that rare story where you cheer for the hero and the villain in equal parts and, in the end, feel completely satisfied." – **Annabel Monaghan, author of *Same Time Next Summer***

PRINCIPLES OF (E)MOTION

by Sara Read

Mathematical genius Dr. Meg Brightwood has just completed her life's work—a proof of a problem so impenetrable it's nicknamed the Impossible Theorem.

Reclusive and burdened by anxiety, Meg hadn't been taken seriously before. Now everyone wants to get their hands on what she alone possesses—especially her own mathematician father.

Having grown up a prodigy in a field plagued by sexism and plagiarism, Meg opts for a public presentation so there will be no doubt of her authorship. But a panic attack obliterates her plans. In defeat, Meg returns to the decaying house where she lives alone and locks away the one and only manuscript of her proof.

Then chance sends her the unlikeliest of allies: Isaac Wells—carpenter, high school dropout, in trouble with the law. And the one love of Meg's life. Fifteen years ago, they never did more than hold hands. Now adults, they reach toward each other through the minefield of the past and find a tenuous space where they can love and be loved for who they are now.

But when Meg goes to retrieve the Impossible Theorem, she finds it missing. Will she fight for the achievement of the century and the love of a lifetime?

There's something wrong in Renfield County. It seems to have all started with the massacre at the Renfield family home, a farmhouse stained with blood that's seeped through generations. Because that's the thing about blood and madness—they're always spreading

THE POORLY MADE AND OTHER THINGS
by Sam Rebelein

Rachel Durwood is struggling to cope with her mother's sudden death. She's convinced there's some deeper meaning to her mother's passing, a meaning that can only be explained by going back to the beginning of the Renfield County trouble, the day Lawrence Renfield murdered his entire family in cold blood. Like any kid from a small town, there were urban legends that scared her growing up, but unlike most small towns, the Renfield stories were...different. Darker. The kind of stories that left a bad taste in her mouth that's still there 20-some years later. She wants to believe they're just stories, but she can't help but wonder where they came from, and how much of them have a base in reality. She needs to find out more, and she needs to tell her brother Tom to help them both make sense of it all—their mom, the stories, their childhood, Renfield itself.

Interspersed throughout Rachel's email detailing Renfield County's history to Tom are short stories that reveal the truth behind the urban legends that they heard growing up as kids, the often supernatural disturbances that are so much worse than anyone could've imagined. So many stories, and they all seem to trace back to the Renfield massacre. But the real question is whether the trouble started even before that day. If the land itself was cursed in some way. Maybe this was all set into motion long before the Renfields ever even decided to settle down and make themselves at home. But regardless of what started the trouble in Renfield County, there's one thing of which we can be certain: for those living there, the nightmare is far from over.

Sam Rebelein holds an MFA in Creative Writing from Goddard College (with a focus on Horror and Memoir) and a certificate of graduation from the Lubbock Area Square & Round Dance Federation. Hard to say which of these is his greatest accomplishment. His award-nominated work has appeared in several speculative fiction publications, including *Bourbon Penn*, *The Deadlands*, *Coffin Bell Journal*, *Pseudopod*, *Press Pause Press*, *Shimmer*, *Ellen Datlow's Best Horror of the Year*, and elsewhere. Against the bold beauty of San Juan, a baffling genealogy test connects two 20-something women across cultures and class in this emotional yet refreshing story about sisterhood and self-discovery for fans of Nina LaCour, Xochitl Gonzalez, Elizabeth Acevedo, Annette Chavez Macias, and Julia Alvarez

FAMILIA

by Lauren E. Rico

As the fact checker for a popular magazine, Gabby DiMarco believes in absolute, verifiable Truths—until they throw the facts of her own life into question. The genealogy test she took as research for an article has yielded a baffling result: Gabby has a sister—one who’s been desperately trying to find her. Except, as Gabby’s beloved parents would confirm if they were still alive, that’s impossible.

Isabella Ruiz can still picture the face of her baby sister, who disappeared from the streets of San Juan 25 years ago. Isabella, an artist, has fought hard for the stable home and loving marriage she has today—yet the longing to find Marianna has never left. At last, she’s found a match, and Gabby has agreed to come to Puerto Rico.

But Gabby, as defensive and cautious as Isabella is impulsive, offers no happy reunion. She insists there’s been a mistake. And Isabella realizes that even if this woman is her sister, she may not want to be. With nothing—or perhaps so much—in common, Gabby and Isabella set out to find the truth, though it means risking everything they’ve known for an uncertain future—and a past that harbors yet more surprises....

Two real, brilliant women on two sides of the law, in a daring game of cat and mouse...

THE LAST TWELVE MILES
by Erica Robuck

Washington, D.C., 1926. In the Prohibition Rum Wars, the Coast Guard is losing. Eleven million gallons of illegal liquor a year have created a booming smuggling economy, with criminals wreaking havoc on American cities, and everyday citizens thumbing their noses at Uncle Sam. But the Coast Guard has a new, secret weapon—a husband-and-wife pair who invented cryptanalysis and trained Great War soldiers—to crack smuggler codes, intercept traffic, and destroy the trade, one skiff at a time. That secret weapon is a mastermind in heels, who also happens to be a wife and mother: Mrs. Elizebeth Smith Friedman.

When Marie Waite—wife of a rumrunner and mother of two little ones—notices discrepancies in cargo, she insists on accompanying her husband, Charlie, on a run from their home in Miami to Nassau. There she becomes enthralled by Cleo Lythgoe, “The Bahama Queen,” who announces her retirement. In spite of Cleo’s warnings about a “new man in the government” who seems to know where they are before they get there, Marie knows an opportunity when she sees it, and she wants the crown for herself.

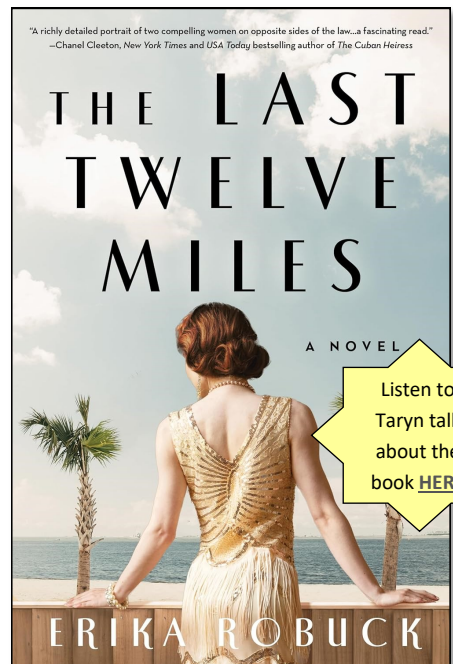

So begins Marie’s plan to rise as rumrunner royalty. What she didn’t count on was that, the more sophisticated her operation grows, the more she comes on the radar of the mastermind nabbing criminals by the daily dozen. Once Marie knows who she’s up against, she’s more determined than ever to triumph.

On the other side of the law, Elizebeth is the only codebreaker battling scores of smugglers. From solving thousands of intercepted codes and ciphers, to riding along on Coast Guard patrols, to national travel, to testifying in court rooms—all while managing her household—the strain begins to wear on her. Once the work becomes personal, and she discovers Marie as a premier adversary, Elizebeth’s desire to catch the woman becomes almost obsessive....

A queer comedy-adventure about pirates, pitched as *Our Flag Means Death* meets *Six of Crows*, in the style of Terry Pratchett's *Going Postal*

RUNNING CLOSE TO THE WIND
by Alexandra Rowland

Avra Helvaçi, former field agent of the Arashti Ministry of Intelligence, has accidentally stolen the single most expensive secret in the world—and the only place to flee with a secret that big is the open sea.

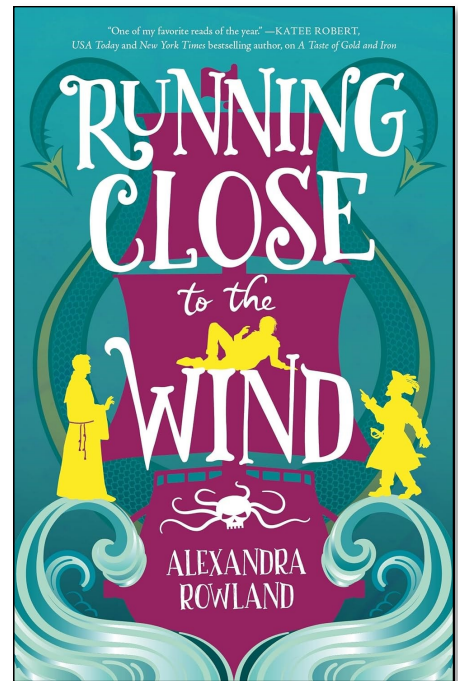

To find a buyer with deep enough pockets, Avra must ask for help from his on-again, off-again ex, the pirate Captain Teveri az-Haffar. They are far from happy to see him but, together, they hatch a plan: take the information to the isolated pirate republic of the Isles of Lost Souls; fence it; profit. The only things in their way? A calculating new Arashti ambassador to the Isles of Lost Souls who's got his eyes on Avra's every move; Brother Julian, a beautiful, mysterious new member of the crew with secrets of his own and a frankly inconvenient vow of celibacy; and the fact that they're sailing straight into sea serpent breeding season and almost certain doom.

But if they can find a way to survive and sell the secret on the black market, they'll all be as wealthy as kings—and, more importantly, they'll be legends.

As soon as he saw that ship come over the horizon, Avra Helvaçi said, "Eeee," scurried to his tiny cabin so he would be safely out from underfoot, shut the door, sat on the bunk with his little rucksack clasped in his lap, and began to silently compose and rehearse the apology he would imminently need to present, if only to keep himself from being shoved overboard and left for dead. Again.

Alexandra Rowland is the author of several fantasy books, including *A Conspiracy Of Truths*, *A Choir Of Lies*, and *Some by Virtue Fall*, as well as a cohost of the Hugo Award-nominated podcast *Be the Serpent*, all sternly supervised by their feline quality control manager. They hold a degree in world literature, mythology, and folklore from Truman State University. www.alexandarowland.net

An invitation she can't decline...

FOOL ME ONCE
by Nichole Severn

FBI criminologist Leigh Brody has no idea why she's been transferred out of her routine desk job and into Interpol Washington's elite task force. That is before her study of the latest crime scene reveals a killer has requested her by name.

Two victims. Both murdered a week apart with an MO she's never been able to forget. Bodies drained of blood. A killer who knows how to clean up after himself. And a toy soldier left with the remains. It's impossible for Leigh not to see the connection to her brother's murder 20 years ago. Which could mean her father was wrongfully convicted for his death...and the real killer has been out there all along.

To stop an unknown subject from striking again, she'll have to trust her new team with her own closely guarded secrets and return to the small New Hampshire hometown that turned her family into outcasts.

But the deeper Leigh investigates, the murkier the answers about the case become. Until she doesn't know who has her back and who will kill to keep the truth from coming to light.

Was killing someone supposed to be this easy?
The Mascoma River churns and bubbles beneath the wood
-slated bridge, drowning out the sound of my own
breathing as I drag dear Michelle out of the car by the tarp
I laid under her. Her shoes catch against the asphalt but
fail to slow me down. I've studied enough homicide
investigation scenes to know the longer I stay, the more
evidence I'll leave behind, but I've trained for this. I'm
good at this, as Michelle can attest. And when I'm done,
everyone in this town will know exactly how far I'm
willing to go.

A warm and hopeful story of a defunct witch consumed by grief, who discovers a whimsical cast of characters in a magical arboretum—and the healing power of found family

HOUSE OF FRANK
by Kay Synclaire

Defunct witch Saika is ready to enact her sister’s dying request: to bury her ashes at the famed Ash Gardens. When she arrives at the always-stormy sanctuary, she is welcomed by its owner, an enormous, knit-cardiganed mythical beast named Frank, who offers her a role as one of the estate’s caretakers. Overcome with grief, Saika accepts, desperate to put off her final farewell to her sister. But the work requires a witch with true powers, and Saika’s been disconnected from her magic since her sister’s death two years prior. Saika gets by at the sanctuary using a fragment of a fallen star to cast a few enchantments—while hiding the embarrassing truth about herself.

As Saika works harder in avoidance of her pain, she learns more about Frank, the decaying house at Ash Gardens, and the lives of the motley staff, including bickering twin cherubs, a mute ghost, a cantankerous elf, and an irritating half-witch, among others. Over time, she rediscovers what it means to love and be wholly loved, while allowing her joy and grief to coexist.

Warm and inventive, *House of Frank* is a stirring portrait of the ache of loss and the healing embrace of love.

We reach the end of the stairwell and cross through the foyer into the library. Frank is inside, tossing furniture and books. A lamp crashes to the floor.

Oli is already there, trying to get through to him. “Frank, it’s alright!”

“Bee’s gone!” he yells. He paces the library, and his massive stomps shake the room. “It’s not alright! Not in the least!” His paws ball into fists and slam into the bookshelf. Dozens of books and curios fall, crashing onto the floor.

Kay Synclaire is the youngest of five children and the proud aunt of 12. Kay attended Philadelphia University before working in caretaking roles as a nurse assistant and preschool teacher. Kay currently lives in Philadelphia, with her sister, who is the co-author of her 2022 collection of short stories, *The Strange Accounts of Germantown and Other Peculiar Phenomena*. *House of Frank* is her debut novel.

CAN'T SPELL TREASON WITHOUT TEA

Tomes & Tea, book 1
by Rebecca Thorne

All Reyna and Kianthe want is to open a bookshop that serves tea. Worn wooden floors, plants on every table, firelight drifting between the rafters...all complemented by love and good company. Thing is, Reyna works as one of the Queen's private guards, and Kianthe is the most powerful mage in existence. Leaving their lives isn't so easy.

But after an assassin takes Reyna hostage, she decides she's thoroughly done risking her life for a self-centered queen. Meanwhile, Kianthe has been waiting for a chance to flee responsibility—all the better that her girlfriend is on board. Together, they settle in Tawney, a town nestled in the icy tundra near dragon country, and open the shop of their dreams.

What follows is a cozy tale of mishaps, mysteries, and a murderous queen throwing the realm's biggest temper tantrum. In a story brimming with comfort and quiet fireside conversations, these two women will discover just what they mean to each other...and the world.

**THE CRIMSON RUIN:
This Gilded Abyss, book 2
by Rebecca Thorne**

In Sergeant Nix Marr’s expert opinion, she and Kessandra are fucked.

The underwater city of Fall isn’t the salvation they hoped. Their only transportation back to the surface was destroyed. Fall’s protective dome has cracked, and seawater is gushing inside. The remaining citizens have gone mad with violence...and a vengeful god lurks in the back of Nix’s mind, waiting to corrupt her too.

But Kessandra—Nix’s princess, the bane of her existence, the love of her life—refuses to accept defeat. According to Kessandra, there’s a second submersible, one used to map the ocean floor. If they can find it, commandeer it, they may escape.

But Nix knows the truth: the ancient god will never release her from its clutches. Poison is slipping through Nix’s veins, and soon, she’ll be overcome by bloodlust too. She’s going to die here. Which means her path is viciously clear:

Her best friend is missing, her career is a disaster, she's stuck living with her parents, and now her heart isn't beating. Can Brooklyn Thomas confront her past to save her present?

BROOKLYN THOMAS ISN'T HERE

by Alli Vail

Summer is off to a bad start and getting worse. Brooklyn Thomas is pretty sure she's mostly dead. She can't feel her heart beat and she's disappearing: her reflection keeps vanishing from mirrors. No one else seems to notice. Not her coworkers at the artisanal doughnut shop she works at after failing at her high-paying marketing job. Not her crush, whom she keeps humiliating herself in front of. Not her parents, whose basement suite she's stuck living in now that she can't afford rent anymore. To top it all off, she's hallucinating stars from all her favorite TV shows who want Brooklyn to pull herself together and face the truth about what happened to her career, her best friend, and her relationship with her brother.

As her past collides with her present in painful and unexpected ways, Brooklyn must decide if she's strong enough to confront what haunts her and get a second chance at a real life—before mostly dead turns into actually dead.

Brooklyn Thomas Isn't Here explores how women contort and minimize themselves to fit the roles society and family offer them, and the serious price they pay for doing so.

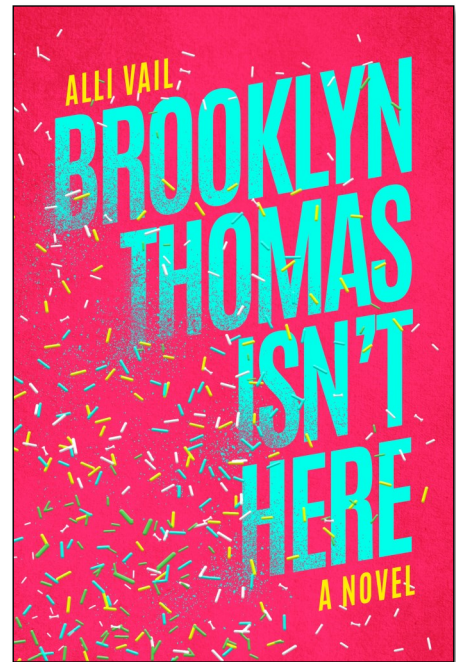

"With vivid prose and a heroine to root for, *Brooklyn Thomas Isn't Here* is a clever take on the ways women change shape to fit into society. Part existential study and part feminist rally cry, Alli Vail's incisive debut is a reminder that it is never too late for a second chance at life."

— **Holly James**, author of *Nothing but the Truth*

"An honest, compelling page-turner...a thought provoking read from an author with an experienced hand and an incredible depth of understanding for what women can experience in a man's world." — **Stella Harvey**, Author of *Finding Callidora* and Founder, Whistler Writers Festival

Alli Vail is a journalist and editor who spent eight years working for award-winning national and provincial newspapers, edited a New York-based graffiti magazine, led social media teams at digital-first companies, and has written reams of content at design and marketing agencies. From perennially popular historical novelist Christine Wells comes a delightful tale of three young women in 1950s Paris who share a single dazzling Christian Dior gown

THE PARIS GOWN
by Christine Wells

Paris, 1955. Three friends—Claire, Gina, and Margot—who parted as very young women with their whole lives ahead of them, reunite in Paris years later, determined to start life anew.

Parisian Claire has been working hard to become a Michelin-starred chef one day, but ever since the heady time she spent in the company of socialites Gina and Margot, her dream has been to own a Dior gown. This seemed like a far-off fantasy, until her neighbor, Deidre Martin, who lives above Claire's family brasserie, mysteriously disappears from Paris, quitting her job at the United States Embassy and leaving Claire to mind her apartment. Most bafflingly, Deidre also makes Claire a very special gift: a stunning Dior gown.

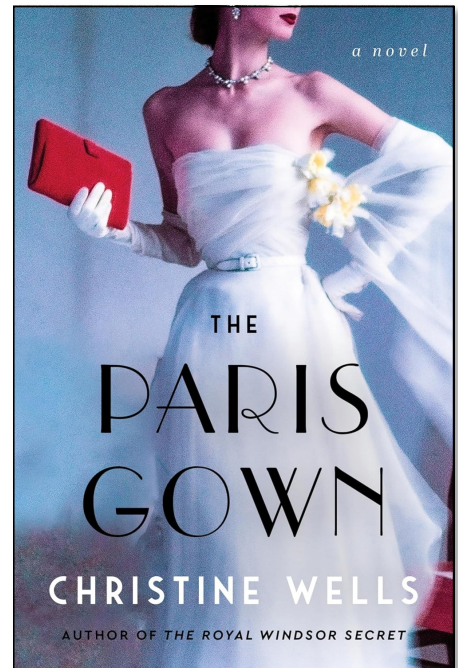

Meanwhile Gina, a cool American blue blood, lands on Claire's doorstep nursing a broken heart and a broken engagement after her father lost all of the family money in a risky business venture. A journalist aspiring to be a novelist, Gina has returned to Paris in the hopes of pursuing her dream. But when Deidre goes missing, Gina's journalistic instincts scent a story, and an invitation to the United States Embassy ball is too great an opportunity to miss. Only what on earth is she going to wear?

Warm-hearted Claire insists Gina wear the Dior gown to the ball, and after some hesitation, Gina accepts. At Dior for Gina's fitting, whom should assist them but Margot, the friend they thought had gone back to Australia to be married. But Margot is living in Paris and working at Dior under an assumed name, and clearly is not happy to have been found. Is their close friendship at an end? Or will the wonder and delight of the Dior gown bring these young women back together?

Gorgeous, perfectly fitted, lustrous and luxurious, the Dior gown has the power to change lives—as these three remarkable women are about to discover....

A vampire escapes the thrall of Dracula and embarks on her own search for self-discovery and true love in this epic and seductive gothic fantasy from the #1 *New York Times* bestselling author of *Hide*

LUCY UNDYING: A Dracula Novel
by Kiersten White

Her name was written in the pages of someone else’s story: Lucy Westenra was one of Dracula’s first victims.

But her death was only the beginning. Lucy rose from the grave a vampire and has spent her immortal life trying to escape from Dracula’s clutches—and trying to discover who she really is and what she truly wants.

Her undead life takes an unexpected turn in 21st Century London, when she meets another woman, Iris, who is also yearning to break free from her past. Iris’s family has built a health empire based on a sinister secret, and they’ll do anything to stay in power.

Lucy has long believed she would never love again. But she finds herself compelled by the charming Iris while Iris is equally mesmerized by the confident and glamorous Lucy. But their intense connection and blossoming love is threatened by outside forces. Iris’s mother won’t let go of her without a fight, and Lucy’s past still has fangs: Dracula is on the prowl once more.

Lucy Westenra has been a tragically murdered teen, a lonesome adventurer, and a fearsome hunter, but happiness has always eluded her. Can she find the strength to destroy Dracula once and for all, or will her heart once again be her undoing?

Don’t forget.
If my heart beat, it would beat your name.

Kiersten White is the #1 *New York Times* bestselling, Bram Stoker Award–winning, and critically acclaimed author of many books, including *Hide*, *Mister Magic*, *The Dark Descent of Elizabeth Frankenstein*, the *And I Darken* trilogy, the *Camelot Rising* trilogy, and *Star Wars: Padawan*. Her books have been published in over 20 languages. White lives with her family in San Diego, where they obsessively care for their deeply ambivalent tortoise, Kimberly. www.kierstenwhite.com

Carmel-by-the-Sea garden shop owner Courtney Kelly sees things others can't—like fairies, and hidden motives for murder...

**A TWINKLE OF TROUBLE:
Fairy Garden Mystery, book 5
by Daryl Wood Gerber**

Courtney is delighted when her tiny friend Fiona returns from the fairy realm, appearing at the base of a Cypress tree. When her Ragdoll cat, Pixie, emerges from her own portal—aka the cat door—the three set off for a busy day. Busier than usual, since Courtney has rented a small plot of land at the Flower Farm, where she hopes to grow her own supplies for her fairy-garden business. Plus, the annual Summer Blooms Festival is coming up, and Courtney has booked a booth....

But the murder of Courtney's friend, Genevieve, casts a pall over the festival. Ever since Genevieve sold her floral business, she'd been building a career as an influencer. She was perennially opinionated—but in her new role she'd become surprisingly vicious, dissing local entrepreneurs with nasty posts and unwarranted bad reviews. That's landed a couple of Courtney's other friends on the suspect list—including Flower Farm owner Daphne Flores. And when a second victim is discovered, seeds of doubt about Daphne's innocence sprout in Courtney's mind. Working with only a germ of a clue, Courtney will have to overturn every rock to get the dirt on the real killer....

What if you're the only one who believes your son is missing? A chilling, twisty psychological suspense novel, perfect for fans of Laura Dave and Gillian Flynn

THE SON'S SECRET
by Daryl Wood Gerber

What if you're the only one who believes your son is missing? Maggie Lawson is the smart, capable dean of a boutique college, but even the most confident mother has a weakness—her child. When Maggie can't reach her son Aiden, a college senior with a bright future, to tell him his father, her ex-husband and investigative reporter, has been shot, she starts to worry. She texts. She calls. Aiden ghosts her. For years Maggie has feared that because of the dangerous stories her husband pursues something would happen to her family. Her worry turns to panic when she learns from her son's new bride that Aiden walked out on her. The daughter-in-law assures Maggie that everything is fine. Aiden has left before. But the woman's cavalier attitude gnaws at Maggie.

To make matters worse, Aiden's best friend hasn't seen or heard from him, either. Has someone kidnapped him? Is he dead? As much as Maggie hates her helicopter tendencies, this time she needs to trust her maternal instinct, especially after her daughter-in-law receives a bizarre ransom note. Leaving no stone unturned, Maggie races against the clock to save her son before he takes his final breath.

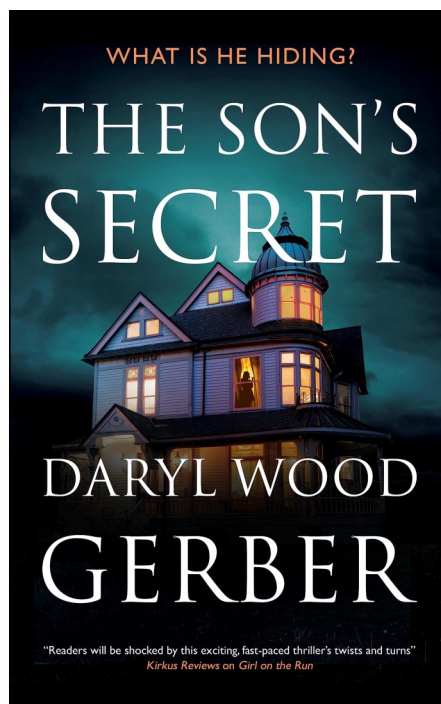

"New Orleans is a perfect setting for the mixed bag of motives in this page-turner" – *Kirkus*

Was my opinion of my son completely off base? Had he changed into a self-centered human being who didn't care about hurting his wife or his family? Was there nothing more I could do? Should I give up? No, I couldn't believe any of that. None of it. Aiden was in trouble. I could feel it in my bones.

A tightly plotted page-turner ripped from the headlines of history, as three very different women must work together to stop a killer and save the truest home they've ever known

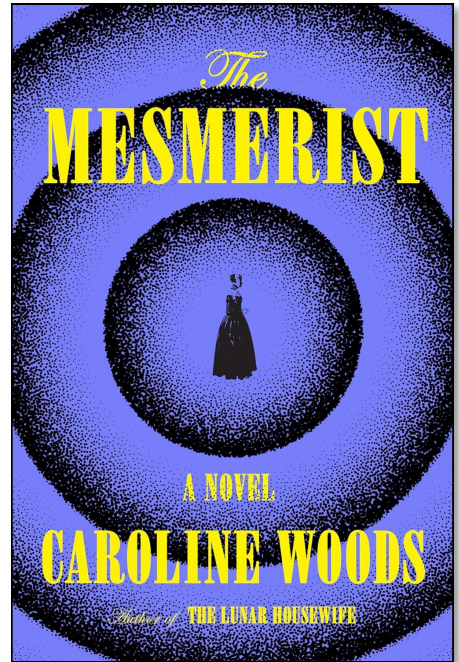

THE MESMERIST
by Caroline Woods

Before hypnotism, there was Mesmerism. And in 1894 Minneapolis, in the wake of a national financial crisis, spiritualism of every stripe is all the rage, and women are dying under mysterious circumstances. But until a new guest lands at the Bethany Home for Unwed Mothers, refusing or unable to speak or explain her arrival, the sordid stories of unexplained deaths seem unconnected. Faith's reticence is quickly interpreted as malevolence, setting the house abuzz with whispers of dark magic.

Abby, a staunch Quaker, lifelong supporter of progressive causes, and Bethany Home's treasurer, thinks the rumors of mystical powers swirling around Faith are nonsense, but she recognizes the danger of a good story. Refusing to allow the Home's important mission to be clouded by scandal, Abby tasks Faith's roommate, May, with tracing Faith's path to Bethany Home.

May is desperate to end her year at Bethany Home engaged and on track to her happily-ever-after—even if her prince charming is Hal, a man she's not sure she can trust. She uncovers a Minneapolis she never expected as she begins digging into Faith's shadowy background, and her investigation brings her closer to polite society and Hal than she could have dreamed. The more May learns, the more she's forced to question the motives of everyone around her, including Abby and Faith, and as more women turn up dead, May must reevaluate the future she wants, and which lies she's willing to tell, for whom.

"The magic of *The Mesmerist* is not only found in the spiritualism that haunts every page, but also the three tenacious women at its core, dedicated to unmasking America's first serial killer. With expert skill, Woods turns the screw, ratcheting up the real danger and the contemporary panic around women's independence. A darkly textured, delicious read." – **Katy Hays, *New York Times* bestselling author of *The Cloisters***

A LITTLE BOOK OF HUMMINGBIRDS

This small-format hardcover book includes:

- 45 lifelike ink-and-watercolor drawings showcasing all the species commonly found in the US and Canada, as well as the most frequent visitors—often depicted with their favorite flowers
- Fascinating facts on cultural history, folklore, migration patterns, habitat, lifecycle, biology, and anatomy

“When Rachel Belle said she was working on a cookbook, I sighed and hoped for the best. And then this slightly insane book about sesame and tahini arrived and I was truly surprised: these are ingredients I haven’t cooked with in years, flavors I literally haven’t explored since my childhood, but who among us can resist the sounds of Hot Pink Hummus? Gingery Sesame Chicken Soup with Rice Noodles? Tahini Frangipane Apricot Galette? By the end of the first reading I had been swayed. My mouth was officially watering.” – **Isaac Mizrahi, performer, writer, and designer**

Rachel Belle is the Seattle-based creator and host of *Your Last Meal*, a James Beard Award finalist for Best Podcast, and a national Edward R Murrow award-winning news radio feature reporter with 20 years broadcast journalism experience. Countless companies seek to leverage innovation to lead their industries—but many fail because they don't understand what makes innovation teams unique. Cagan and Boatwright draw on 50+ years of experience to offer 13 tips to successfully manage innovation teams

MANAGING THE UNMANAGEABLE:

**13 Tips for Building and Leading a Successful Innovation Team
by Johnathan Cagan & Peter Boatwright**

Nearly all innovation is done by teams. And while there are many books about the innovation process, and also many about managing teams, the management of innovation teams has gone unaddressed.

Yet innovation teams are not like other teams. The team is tasked with going where none have gone before—with scaling a mountain whose height, form, and hidden passes are unknown, and doing so before a rival team from the other side of the mountain finds the summit.

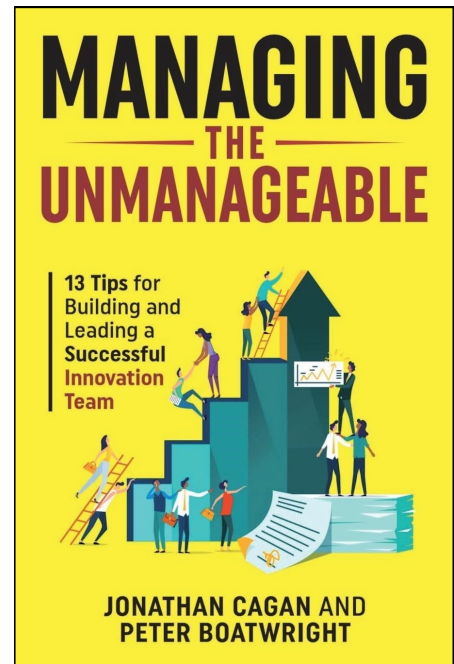

In *Managing the Unmanageable*, Jonathan Cagan and Peter Boatwright offer 13 tips that can greatly improve the odds for success for any innovation team. Filled with eye-opening real world examples, bolstered by ground-breaking research studies, and enlivened with illustrations by artist Kurt Hess, it's a fascinating read that any manager with a mandate to innovate will find irresistible—and invaluable.

“Demystifies a process that too often entails risk and guesswork or gets bogged down in aimlessness....Inspiring guidance for managing innovation teams to create lasting success.” – *Publishers Weekly BookLife*

“Finally, innovation managers have a handbook that they can rely on—one that should be in the collection of every technology leader and innovation practitioner.” – **Tolga Kurtoglu, Former Chief Technology Officer, HP**

Jonathan Cagan and Peter Boatwright are Carnegie Mellon professors and practitioners with a combined 50+ years of experience in research, consulting, and hands-on innovation. Together, they created the Integrated Innovation Institute at Carnegie Mellon and its professional masters degree program. They've also co-authored two previous books, *The Design of Things to Come* and *Built to Love*.

A fascinating and tragic story about criminals, politicians and the wild days at the end of Prohibition

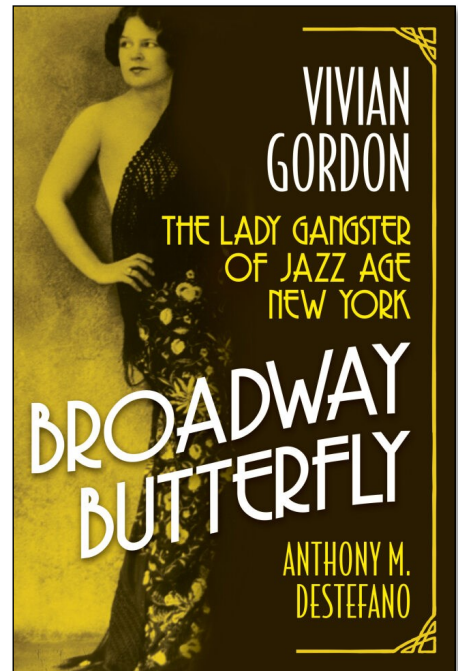

BROADWAY BUTTERFLY:

Vivian Gordon, the Lady Gangster of Jazz Age New York
by Anthony M. DeStefano

Like so many other pretty butterflies, Indiana-born Vivian Gordon fluttered to New York in 1920 looking for fame and fortune. Before long, the flame-haired chorus girl parlayed her youth, beauty, and ambition into more profitable means as a tough and glamorous symbol of Prohibition-era excess. She was a speakeasy owner, blackmailer, high-end escort, extortionist, racketeer, and con woman. But given her dangerously intimate associations—from ruthless underworld gangsters to corrupt high-ranking city officials—Vivian was also a woman who knew too much and who rightfully feared for her life.

On February 26, 1931, Vivian’s bludgeoned and garroted body was found dumped in Van Cortland Park in the Bronx. Now, in the first in-depth biography of its kind, Pulitzer Prize and Emmy Award-winning journalist Anthony M. DeStefano unravels her tumultuous life and the headline-making murder that became an obsession for many, including then-Governor Franklin Delano Roosevelt.

The evidence Vivian left behind was damning: a diary with more than three-hundred names implicating powerful officials, philanthropists, businessmen, and every major gangland figure in collusion and corruption. The investigation eventually resulted in the career end of James “Jimmy” Walker, disgraced mayor of New York City. Ultimately, *Broadway Butterfly* finally finds a place in history for Vivian, a woman with a rare legacy in gangster lore, whose demise was as tragically inevitable as the brutality of the city’s demimonde during Prohibition.

The story of the epic friendship between John Belushi and Dan Aykroyd, the golden era of improv, and the making of a comedic film classic that helped shape our popular culture

**THE BLUES BROTHERS:
An Epic Friendship, the Rise of Improv, and the Making of an
American Film Classic**
by Daniel de Visé

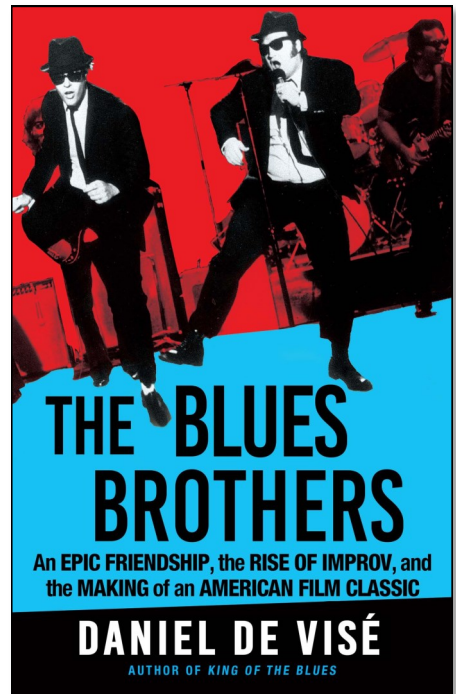

“They’re not going to catch us,” Dan Aykroyd as Elwood Blues tells his brother Jake, played by John Belushi. “We’re on a mission from God.” So opens the musical action comedy *The Blues Brothers*, which hit theatres on June 20, 1980. Their scripted mission was to save a local Chicago orphanage; but Aykroyd, who conceived and wrote the film, had a greater mission: to honor the then-seemingly forgotten tradition of rhythm and blues, some of whose greatest artists—Aretha Franklin, James Brown, John Lee Hooker, Cab Calloway, Ray Charles—made the film as unforgettable as its wild car chases. Late and vastly over budget, beset by mercurial and oft drugged-out stars, *The Blues Brothers* opened to tepid reviews at best. However, in the 44 years since it has been acknowledged a classic: inducted into the National Film Registry for its cultural significance; even declared a “Catholic classic” by the Church itself; and re-aired thousands of times on television to huge worldwide audiences. It is, undeniably, one of the most significant films of the 20th century.

The story behind any classic is rich; the saga behind *The Blues Brothers*, as Daniel de Visé reveals, is epic, encompassing the colorful childhoods of Belushi and Aykroyd; the comedic revolution sparked by Harvard’s *Lampoon* and Chicago’s *Second City*; the birth and anecdote-rich, drug-filled early years of *Saturday Night Live*, where the Blues Brothers were born as an act amidst turmoil and rivalry; and of course the indelible behind-the-scenes narrative of how the film was made, scene by memorable scene. Based on original research and dozens of interviews probing the memories of principals from director John Landis and producer Bob Weiss to *SNL* creator Lorne Michaels and Aykroyd himself, *The Blues Brothers* vividly portrays the creative geniuses behind modern comedy.

Daniel de Visé is the author of *King of the Blues: The Rise and Reign of B.B. King*, *The Comeback: Greg LeMond*, *The True King of American Cycling and a Legendary Tour de France*, *Andy and Don: The Making of a Friendship and a Classic American TV Show*, and coauthor of *I Forgot to Remember: A Memoir of Amnesia*. He shared a 2001 Pulitzer Prize for his journalism and has worked at the *Washington Post* and *Miami Herald*, among other

newspapers. He lives in Maryland. <https://danieldevisé.com>

A guide to using the power of storytelling for success in business of all types and sizes, whether you're an online marketer, small business owner, independent contractor, or Fortune 500 executive

STORIES SELL:
Storyworthy Strategies to Grow Your Business and Brand
by Matthew Dicks

The corporate world is flooded with data: spreadsheets, charts, graphs, and yawn-inducing PowerPoint presentations. But human brains are wired for stories. Stories move us in ways that data can't, and a well-told story trumps a mountain of facts and figures.

Matthew Dicks has learned the value of storytelling in his career as a novelist, marketing consultant, and award-winning slam storyteller. He's found that the basic principles of effective storytelling are universal and teachable. In *Stories Sell*, he applies those principles to business communication, guiding readers to craft stories that connect with audiences—whether a single person or a crowded auditorium.

Jam-packed with examples, *Stories Sell* reveals the ingredients of a compelling story and then demonstrates how they can be incorporated into persuasive marketing copy, productive face-to-face conversations, and presentations that people actually want to hear (no PowerPoint slides required!). Topics include:

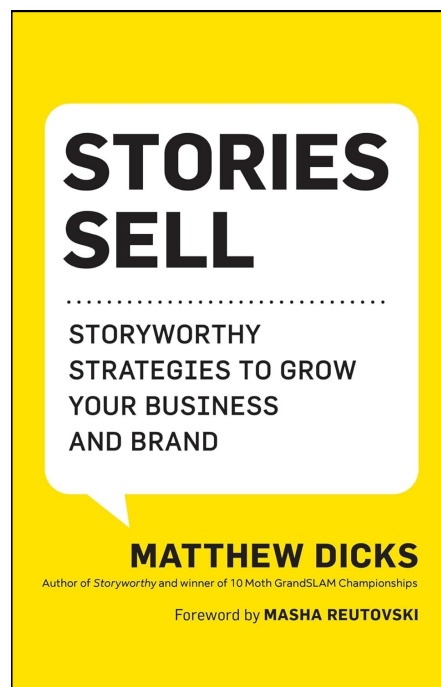

- the three elements of a winning story: stakes, suspense, and surprise
- finding the right narrative structure (and why beginning at the beginning isn't always the best method)
- when and how to use humor
- zipping while others zag: making yourself stand out from competitors

Above all, *Stories Sell* gives readers permission to be themselves, take risks, and make a splash in a sea of corporate blah. *Stories Sell* teaches readers to find their voice and share those stories with the world.

When is the simple act of taking a breath an act of courage?

BREATH TAKING:

A Memoir of Family, Dreams, and Broken Genes
by Jessica Fein

At the age of five Jessica Fein's daughter Dalia was diagnosed with a rare degenerative disease that would claim her life at 17. Before that moment came, and inspired by Dalia's own insuppressible zest for life, Fein and her family would discover how to live in the present when the future can't be fixed.

In this heartfelt yet clear-eyed memoir, Fein maps both her journey to becoming an adoptive mom and the roller coaster ride of loving and caring for a terminally ill child, persevering when the simple act of taking a breath can become an act of courage. Through it all, she discovers the need to be both relentless advocate and calm presence, to show vulnerability as well as strength, and to allow joy to be louder than sorrow.

"An epic story of love and resilience." – Kirkland Hamill, author of the critically acclaimed memoir *Filthy Beasts*

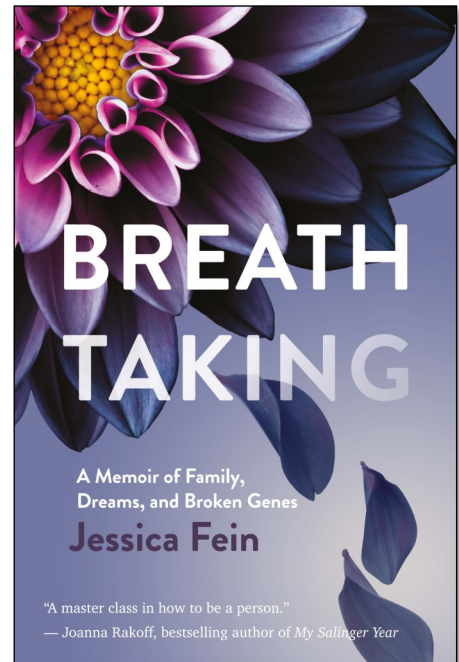

"Astonishing...one of the most moving memoirs I've read." – Caroline Leavitt, *New York Times* best-selling author of *With or Without You* and the forthcoming *Days of Wonder*

"More than an honest and humorous memoir, *Breath Taking* can be the guide star so many seek when life hands them more than they ever imagined they could endure." – Daniel DeFabio, Co-founder Disorder: The Rare Disease Film Festival, Co-founder The Disorder Channel

"A story of relentless heartbreak met with wit, strength, and resilience." – Jennifer Weisel Bailey, *ELLE Magazine*

Jessica Fein is a mother, writer, and head of brand and creative services at Bright Horizons, a billion-dollar global childcare and education company. She and her husband adopted their three children from Guatemala. When her daughter Dalia was four years old, she was diagnosed with a rare degenerative disease, MERRF Syndrome. After the diagnosis, Jessica became immersed in the pursuit of a cure and turned into a fierce advocate for her children. Jessica now serves on the Board of Directors of MitoAction, the research, education, and advocacy organization for mitochondrial disease. She is the annual emcee for Boston's Energy Walk & 5K, a mitochondrial disease fundraiser. Jessica was a *Boston Globe* opinion columnist and is the author of *Moving On: How to Make the Transition from College to the Real World* (Penguin 1996). Jessica lives in Boston with her husband and three children. www.jessicafeinstories.com

THE POWER OF PERSONALITY:

Unlock the Secrets to Understanding Everyone in Your Life—Including Yourself!

by Eric Gee

The Power of Personality demystifies the 16 different personality types by teaching the reader how to identify and appreciate their own unique type and that of others. By re-examining previously held assumptions on personality and debunking/clarifying them, the reader will be able to understand a person deeper than that person understands themselves. Considering the existential threat of our current, fractured sociopolitical climate tearing itself from within, this skill is not a luxury; it's a necessity.

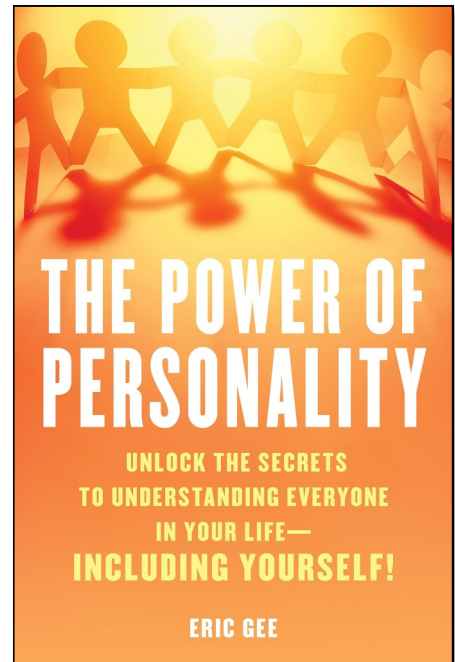

- 16 easy-to-remember, animal archetypes
- An instant conversation centerpiece that everyone can relate to—*The Power of Personality* is the best kind of non-fiction book: one whose subject matter will appeal to all readers because its subject matter is the reader
- A step-by-step guide on how to personality type. *The Power of Personality* is unique in that it trains you to be the test. No more arbitrary questions. No more mistyping

The Power of Personality is groundbreaking in that it will not only change the way readers see the world but will empower them to reexamine their relationships within it. Gone will be the daze of social disconnect and miscommunication. This book is a must-read, a harbinger of a “Youtopia” where, regardless of whether people are shoes, purses, hats, or polka dot cardigans, everyone is seen, heard, and accepted for who they truly are.

Eric Gee has performed personality type-based life coaching for over 20 years. He built and operated a successful education company that utilized his personality typing method to better the lives of more than 20,000 students, parents, and teachers. As creator of the Youtopia Project website and the Youtopia 16 Assessment, Eric Gee has disseminated his method to over half a million users since the website's creation in 2016. He has lectured on personality typing at universities such as UC Riverside

and Otis College of Art and Design. The Youtopia Project is the culmination of tens of thousands of hours of research and application, insights honed by personality typing upwards of 50,000 people throughout his career. youtopiaproject.com

The first-ever biography of an overlooked PGA star
and one of the best Black golfers in history

CALVIN PEETE:
Golf's Forgotten Star
by Gordon Hobson

His story is unprecedented in the world of golf. Born to a family of migrant laborers, Calvin Peete dropped out of school in the eighth grade, went to work picking crops, first swung a golf club at the age of 23—and rose to the top of the PGA.

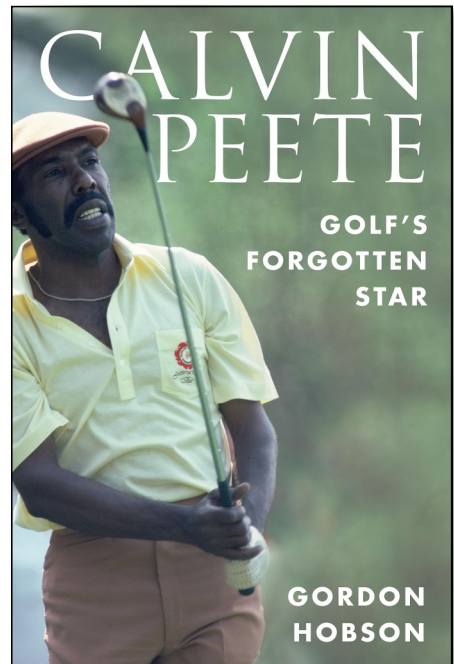

In *Calvin Peete: Golf's Forgotten Star*, Gordon Hobson tells for the first time Peete's incredible story. Hobson recounts how, when Peete joined the lily-white PGA tour in 1976, he stood out from the competition in more ways than one. Peete wasn't raised in country clubs and didn't learn the game at prestigious golf universities. He sported a huge Fu Manchu, cowboy boots, and had diamonds embedded in his teeth. Peete had a permanently bent left elbow and practiced endless hours in a public park to develop one of the most accurate swings in the history of golf. He endured years of futility and despair, but, eventually, he emerged as the best player on the Tour from 1982-86.

Calvin Peete's story is inspiring, but it also reveals the struggles many Black golfers endured even after the Caucasian-only clause was removed from the PGA's bylaws. He may have won 12 championships, played on the US Ryder Cup team twice, and won the prestigious Vardon Award, but the road to success wasn't easy. *Calvin Peete: Golf's Forgotten Star* shows how, even without the advantages some people are born into, one can find success through hard work, determination, and fortitude.

"A compelling read that ignites excitement and delivers insight on one of golf's most exceptional ball strikers." – **Debert Cook, CMP, publisher, African American Golfer's Digest**

Gordon Hobson is a retired attorney and first-time author from Columbus, Ohio. He was raised in a golfing family and has caddied in an LPGA event, a PGA Pro-Am, and for Bruce Fleisher when he won the 1968 US Amateur.

From conscious creativity leader James McCrae comes a guide to reclaim creativity as a sacred path to healing; awaken your sense of wonder, execute your craft, and reclaim the artist within

THE ART OF YOU:

The Essential Guidebook for Reclaiming Your Creativity

by James McCray

Creativity is our true magic. The ability to convert our thoughts into reality is a defining characteristic of being human. But it can also be hard work—especially in a culture that values conformity, trends, and marketability above authentic expression. For anyone who has hit a creative wall and wants to reignite their imagination and passion, author and poet James McCrae’s *The Art of You* is a powerful resource to help you access your inner magic and spark your joy in creativity.

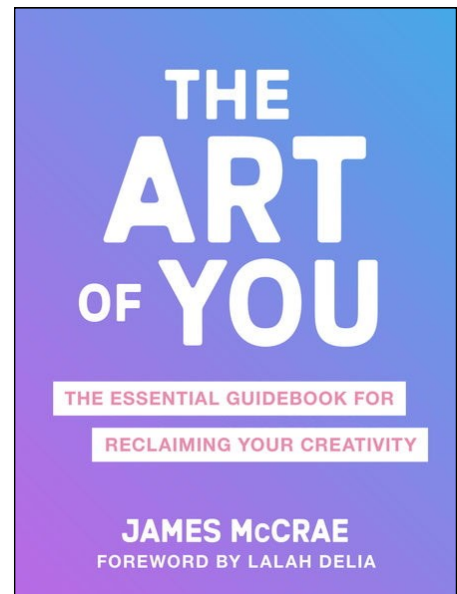

The Art of You helps you dissolve blockages and jump-start your imagination through the Yin-Yang approach. “We’ve been taught to focus on the Yang, which is about drive and effort,” says McCrae. “But we do so at the expense of the Yin: allowing, expansiveness, and flow.” Here he shares a flexible set of tools, exercises, rituals, and insights to help you address the most common impediments to the creative process—and awaken your sense of wonder, your childlike curiosity, and your ability to create something uniquely you out of nothing.

“*The Art of You* offers great insights and steps on how to cultivate creativity. This is essential reading for anyone looking to share their unique experience, to foster deep connections, and to inspire others.” – **Yung Pueblo, #1 New York Times bestselling author**

James McCrae is an author, poet, teacher, and meme artist based in Austin, Texas. He is the founder of Re-Creation Studio, a multi-disciplinary creativity school and community that fuses art, writing, and consciousness. James is the author of two books, *Sh#t Your Ego Says*, which has been translated into five languages, and *How to Laugh in Ironic Amusement During Your Existential Crisis*, the first ever book of published memes. As a creative strategist, James has worked with top global brands (including Microsoft, NBC, Target, SONY, Organic Valley, and United Healthcare). His work has been featured in *Forbes*, *HuffPost*, *Adweek*, *Yogi Times*, and *Entrepreneur*, and more. A comprehensive guide to car ownership and maintenance intended for anyone—regardless of age, gender and experience

**MECHANIC SHOP FEMME'S GUIDE TO CAR OWNERSHIP:
Uncomplicating Cars for All of Us
by Chaya Milchtein**

When did you last pick up a book about cars? Typically written for men, particularly automotive enthusiasts and mechanics, these books rarely appeal to the everyday car owner. *Mechanic Shop Femme's Guide to Car Ownership* is different. Automotive educator, journalist, and social media influencer Chaya M. Milchtein is a queer woman who has spent the last decade deeply entrenched in the automotive industry.

In a country where economic injustices disproportionately impact marginalized people, particularly people of color and the LGBTQ+ community, a reliable car and an excellent relationship with a quality mechanic is vital to climb out of poverty. Chaya understands that a vehicle is an economic necessity that can provide access to career opportunities, financial security, and physical safety. She also understands that queer folks and women often find it daunting to buy a car and, subsequently, deal with the realities of getting it insured and repaired.

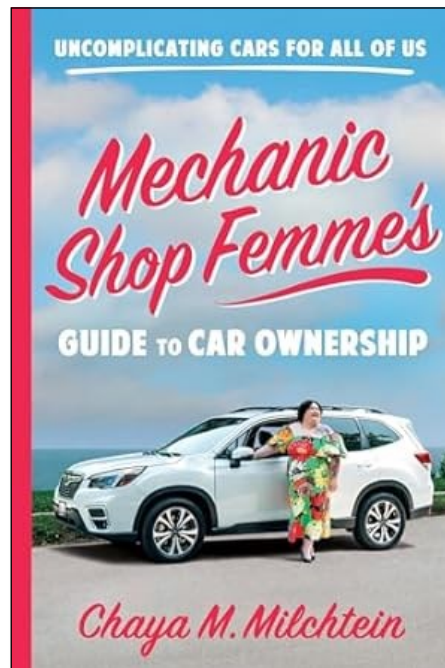

In *Mechanic Shop Femme's Guide to Car Ownership*, Chaya speaks to readers of all identities and socio-economic backgrounds, arming them with the necessary knowledge to navigate the intimidating automotive industry. At its core, this book is an accessible and comprehensive guide that will put readers at ease by providing them with basic knowledge about car ownership and maintenance. From buying a car, to getting it insured, finding the perfect mechanic, and dealing with car emergencies, Chaya encourages her audience to make educated decisions regarding their vehicles.

Chaya Milchtein is an automotive educator, writer, and speaker. As founder of Mechanic Shop Femme, she's made it her life's mission to educate women and LGBTQ+ people about their cars. She has written for publications like *Al Jazeera*, *Shondaland*, *Rewire* by PBS, *Helpful Mechanic*, *Prism*,

Daily Xtra, *The Huffington Post*, and others. She teaches private virtual automotive classes for students across the United States and Canada, and has taken these popular classes and created workshops for libraries, universities, and nonprofits. Offering automotive education that is accessible for everyone, regardless of experience, is the core of her business.

Hell Gate Bridge brings rare mental illnesses into the light, seeks to heal the fractures in our broken maternal and mental healthcare system, and shows how we can overcome the impossible when we fight to save the ones we love

**HELL GATE BRIDGE:
A Memoir of Motherhood, Madness, and Hope
by Barry Miskin**

In the summer of 2016, Barry Miskin became pregnant with her daughter and was encouraged to discontinue the low dose of antidepressants she had been on for over a decade for the safety of the baby. This ended up being a grave mistake. By January 2017, Barry was no longer recognizable to her family, her friends or herself.

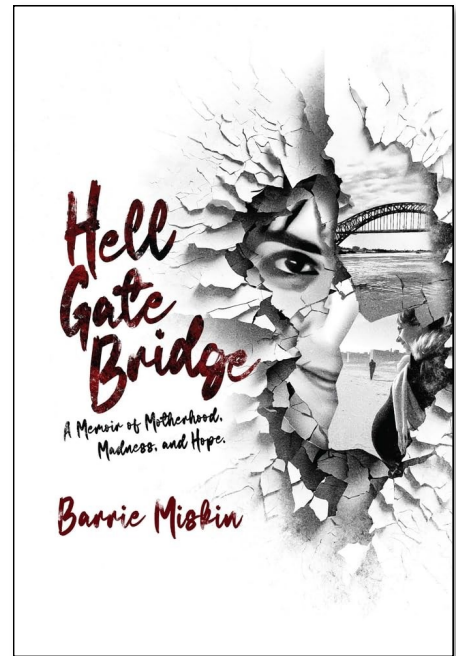

In Barry's family's desperate effort to obtain a diagnosis and a treatment, they journeyed through the cold, bleak, and murky world of mental healthcare in the United States. Sometimes, they were met with compassion and care but more often than not, they were treated with dismissiveness, ignorance, and sometimes, cruelty. When Barry was finally diagnosed with the very rare condition of pregnancy induced depersonalization and derealization disorder, she had to begin the long climb out of the dark well she was imprisoned in—all while trying to raise her beautiful baby daughter, keep her teaching career, and preserve her marriage.

Hell Gate Bridge brings rare mental illnesses into the light, seeks to heal the fractures in our broken maternal and mental healthcare system, and shows how we can overcome the impossible when we fight to save the ones we love.

"An addictive, harrowing account of one woman's descent into depersonalization-derealization disorder and a biting commentary on the American psychiatric care system. Barry Miskin is a master storyteller, laying herself bare with honesty, earnestness, vulnerability, and charm. With the highs, lows and twists of an elegantly plotted novel, *Hell Gate Bridge* explores the paranoia and isolation of maternal mental illness from a whole other universe. This book is poised to be a seminal text."
— **Mila Jaroniec, author of *Plastic Vodka Bottle Sleepover***

Barry Miskin's writing has appeared in *Hobart, Narratively, Expat Press*, and elsewhere. Her interviews can be found in *Write or Die Magazine*, where she is a staff writer. Barry is also a public school teacher in Queens, New York, where she lives with her husband and daughter. *Hell Gate Bridge* is her debut book.

A scientific, groundbreaking approach to happiness and personal fulfillment

THE HAPPINESS FORMULA:

A Scientific, Groundbreaking Approach to Happiness and Personal Fulfillment

by Alphonsus Obayuwana, MD, PhD, CPC

In 1979, Dr. Alphonsus Obayuwana was awarded a national research grant and Smith-Kline Medical Perspective Fellowship to develop an instrument for measuring human hope, with the purpose of detecting hopelessness early enough in troubled human individuals so assistance could be offered in time to prevent suicide. The Hope Index Scale (HIS) that resulted from this grant became very popular with Fortune 500 companies and other institutions both in the US and in other countries. This led to the foundation of decades of research that ultimately resulted in this cutting-edge book, *The Happiness Formula: A Scientific, Groundbreaking Approach to Happiness and Personal Fulfillment*.

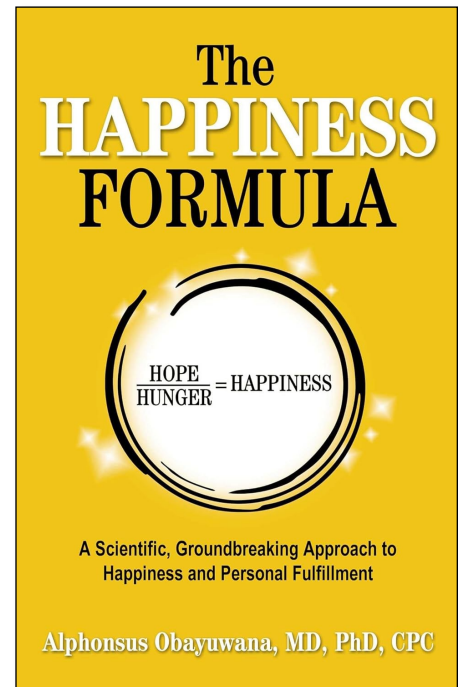

Unlike other books about happiness, which are too often filled with dos and don'ts, wishful thinking, and empty aphorisms, *The Happiness Formula* breaks new ground by introducing a universal unit of measure called the "Personal Happiness Index" or PHI. This makes it possible—for the first time ever—to calculate and assign numerical happiness scores to human individuals by plugging their unique hopes, hungers, assets, and aspirations into an equation.

Despite its title, *The Happiness Formula* is much more than a mathematical equation for measuring happiness. It is a book about life; the relationship between human hope and happiness; how to find, measure and boost them; and, most interestingly, how to confirm the happiest country in the world and even help identify the happiest living human, or HLH. It challenges the World Happiness Report of 2023, debunks three major happiness myths, and then introduces the Triple-H Equation—the simple but profound formula about what makes life worth living. This is a book for happiness seekers and happiness advocates everywhere.

Alphonsus Obayuwana, MD, PhD, CPC, is a physician-scientist, a happiness coach, and the founder and CEO of Triple-H Project LLC—an entity that trains and certifies happiness coaches. He is a Literary Titan Gold Award-winning author who has published several peer-reviewed articles in the national medical journals about human hope and happiness, including *The Hope Index Scale* that became widely used at the Coca-Cola company, General Motors, Veterans Administration, and many academic institutions inside and outside the United States. He is also the author of *The Five Sources of Human Hope* and *How to Live a Life of Hope*. triplehproject.com

The sports world has a new opponent:
climate change

WARMING UP:

**How Climate Change is Changing Sport
by Madeleine Orr**

In recent years, a world championship marathon was held at midnight to avoid the blistering sun. Professional athletes needed oxygen tanks to play during wildfire season in California. Players collapsed and play was suspended amid the heat and bushfire smoke at the Australian Tennis open. Ski resorts in the Alps have turned into ghost towns. Golf courses are sinking into the sea. And then there's the Qatar World Cup, among the greatest follies in sporting history, one that saw hundreds (perhaps thousands) of heat-induced deaths before a ball was even kicked.

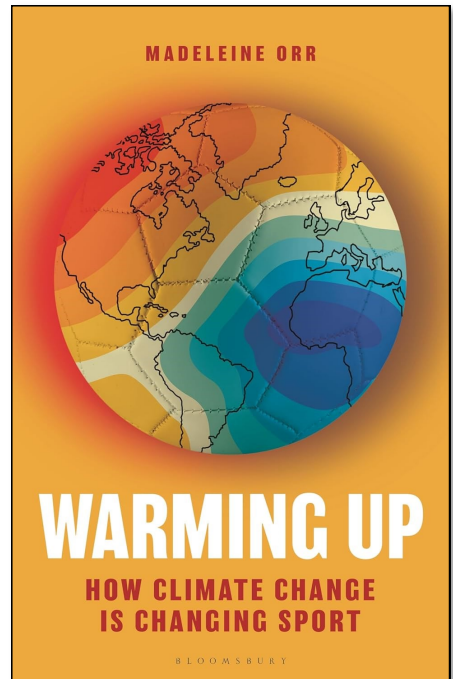

The threat climate change poses to sport is clear, but with billions of participants and fans around the world who rely on the sector for entertainment, jobs, fitness, and health, this is one industry we can't afford to lose. In this book, Madeleine Orr shows it doesn't have to be this way. There are ways to mitigate, and perhaps counter, even the worst elements of climate change.

A world-leading sport ecologist, Madeleine interviews athletes, coaches, politicians, and thought-leaders to learn more about the inevitable consequences for this trillion-dollar industry. From the frontlines of climate change, *Warming Up* takes readers through a play-by-play of how global warming is *already* impacting sport, and how the sports world can fight back.

Dr. Madeleine Orr is one of the first researchers to take a deep dive into the impacts of climate change on sport. A *Forbes* 30 Under 30 inductee in 2021, she is a research fellow at the University of British Columbia in the Faculty of Management. Previously, she was an Assistant Professor of Sport Management at SUNY Cortland. Madeleine is the founder and co-director of The Sport Ecology Group, an international consortium of academics who consult on climate issues for the Commonwealth Secretariat, the UNFCCC, the NFL, the MLB, the NCAA, and countless amateur sports organizations in North America and Europe. Her work has been recognized by the North American Association of Environmental Education (30 Under 30, Class of 2020), *Corporate Knights Magazine* (30 Under 30 in Sustainability Leadership, Class of 2020), and the *Forbes* 30 Under 30 list in 2021. Madeleine works closely with reporters at the BBC and ESPN to further public understanding of climate and sustainability issues in sports. She is a regular on the sport sustainability speaking circuit, having recently spoken at the UN's Sport Positive Summit, the Green Sports Alliance Summit, and the Commonwealth Sport for Development and Peace Network meetings.

A provocative exploration of the witches—and witch hunts—in the untold history of abortion, from the days of Socrates through the Salem Witch Trials and the 1980s Satanic Panic, all the way to our fraught post-Roe present, from journalist Sophie Saint Thomas

REPRODUCTIVE RITES:

The Real-Life Witches and Witch-Hunts in the Centuries-Long Fight for Abortion Access
by Sophie Saint Thomas

For millennia, across cultures and continents, women and people who experience pregnancy, as well as midwives and those who assist them, have been persecuted as witches (whether they actually practiced the craft or not). In this dauntless, voice-driven reassessment of that history, journalist Sophie Saint Thomas follows the tangled threads of witches and reproductive rights through the ages.

Through it all, she maintains an intersectional eye toward the subcultures most affected by reproductive oppression (including Native Americans, enslaved Black women, and trans people) and a scathing exposure of the hypocrisy of anti-choice crusaders (from the eugenicist Church of Satan founder Anton LaVey to the astrology-loving Republican Nancy Reagan). With heart, humor, and deeply researched insights, *Reproductive Rites* brings a new level of context to the urgency of our present moment as we fight for our rights in a post-Roe v. Wade America.

At the intersection of science and art, this must-have coffee table book will open your eyes to colors that you've never seen before

**THE UNIVERSE IN 100 COLORS:
Weird and Wonderful Colors From Science and Nature
By Tyler Thrasher & Terry Mudge**

Life has had over 3 billion years to evolve here on planet Earth. During that time, we've developed an arsenal of senses to decipher the universe. With our amazing ability to paint, create, decode, scan, and unravel our visual reality, it would be hard to believe that there are some things the average human can overlook. This design-forward book highlights 100 mind-blowing colors that you might otherwise live your whole life unaware of. These colors exist in the strangest of places, and serve extremely specific functions in nature, or were human-made with one goal in mind. From Cosmic Latte (the average color of the universe) to Dragon's Blood (a tropical tree that bleeds a deep red resin with incredible medicinal potential); Sonoluminescence (a color created by sound!) to Eiengrau (the color we perceive in the absence of light, and no, it's not "pitch black"), here is the universe in living color.

Includes:

- Foreword by Hank Green
- A short and sweet introduction to color theory
- Photos, diagrams, snappy descriptions, and easy-to-understand category symbols
- Structural colors and colors outside the range of human visibility!
- Myth-busting section

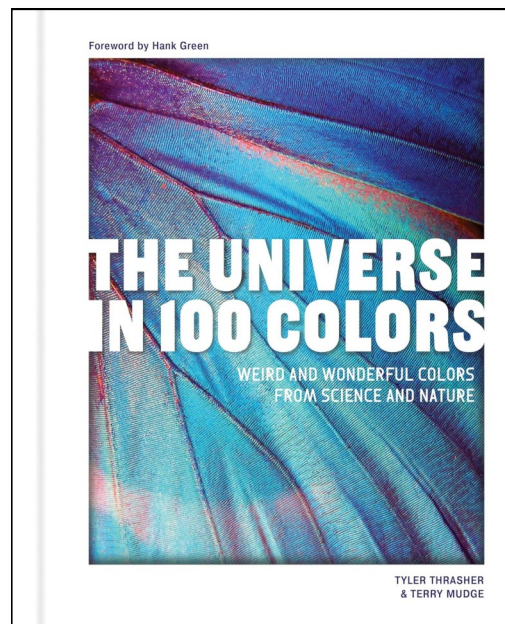

Perfect for anyone who loves science or art, this gorgeous compendium of colors is bursting with astonishing facts and stunning photography.

Tyler Thrasher is a self-taught chemist and botanist with a BFA in computer animation and art history. He spent much of his childhood living in greenhouses, which would go on to inspire his love for nature. During college Tyler spent his free time crawling through caves, which inspired a body of art that involved synthesizing crystals onto preserved insects and organic matter such as skulls. This quickly became his full-time job and ultimately unraveled a deeper fascination for nature and experimentation, which has carried over into the idea for this very book. tylerthrasher.com

Terry Mudge opened the Stemcell Science Shop in 2016 with the goal of elevating the lackluster standard in scientific goods. After several successful years Terry launched his monthly Matter box, one of the most popular science subscription boxes around. He now spends his time hunting down fascinating pieces of nature and science to keep people tantalized by the infinite possibilities of the universe.

An original and empowering no-BS breakdown of how your unconscious is driving your behavior and how you can hack it to get the results you want in your life

YOUR UNCONSCIOUS IS SHOWING

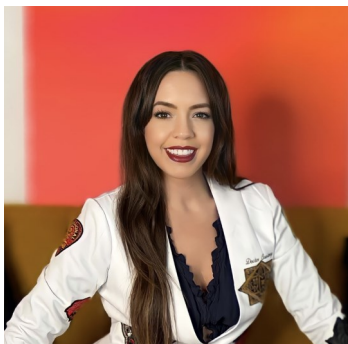

By Dr. Courtney Tracy

Raise your hand if you've ever wanted to do something (or stop doing something) that you couldn't. Be it finally eating more fruits and vegetables, quitting an unhealthy habit, or letting go of jealous behaviors, our conscious minds are often claiming to have goals aligned with bettering ourselves—goals which, for some reason, we don't follow through on. But if we genuinely want to accomplish something, shouldn't we simply be able to?

Nope. And, according to Dr. Courtney Tracy, it's all because of our unconscious mind. (I do not mean subconscious.)

In her groundbreaking debut, *Your Unconscious is Showing*, Dr. Courtney Tracy will guide readers through her highly original perspective on the unconscious, what it contains, and how it's the true driving force behind who we are and what we do. Most people move through life not understanding their own unconscious, and as a result, they are ruled by it. Your unconscious is not always your friend—in fact, it can be a real asshole (and make you one, too). Through a combination of personal anecdotes, client histories, and easy-to-understand scientific research, *Your Unconscious is Showing* will demystify the way the unconscious operates, physically, cognitively, psychologically, and relationally.

In each chapter, she will debunk some commonly held notions around human behavior and pop psychology with her No-BS Truths (“you don't have an inner child!”) and provide practical and usable tools for understanding how your unconscious was formed (spoiler: it started before you were even born—that's why it's so powerful), offering a definitive guide on how you, too, can hack your mind and live the life you want.

Dr. Courtney Tracy, also known as “The Truth Doctor,” is a USC-trained licensed clinical social worker, doctor of clinical psychology, autistic human, recovered borderline, and the founder of the Truth Doctor, a mental wellness company built to teach people what it means to be human. Clinically, she specializes in substance use and borderline personality, and holds over 10 years of direct client experience. She

also offers private coaching for high-profile social media creators and influencers. In 2017, Dr. Courtney founded her first multi-disciplinary treatment center in Santa Barbara, CA. Since 2020, she has developed the Truth Doctor, sold her first center, and has begun writing her debut non-fiction book alongside the development of her next treatment business. She is married to her partner of 18 years, has a young son, and is expecting her second child. www.thetruthdoctor.com

How is a person changed by commitment to their passion, and how does their commitment change over time? These are questions that esteemed climber Sonnie Trotter asks as he reflects on the most thrilling adventures of his life

UPLIFTED:
Stories of Climbing with Friends in High Places
by Sonnie Trotter

2020 was Sonnie Trotter's 25th year climbing. He's been at the forefront of the sport for most of that time, specializing in first ascents on rock faces most people cannot imagine scaling. In *Uplifted*, Sonnie recounts the most memorable moments of his career but also the rich relationships that are the spine of the sport, as well as the psyche that draws one to and evolves as one grows into and through this unique and challenging endeavor.

From learning to climb in an ancient grain silo in southern Ontario, to mastering some of the hardest, tallest rock climbs on Earth, Sonnie shares entertaining but candid tales about life on the road, living in the dirt, overcoming obstacles, and changing within his sport. He writes as if he is sharing stories around the campfire at the end of a great day, when you are bone-tired but loving the camaraderie, so much so that you don't want to retire to your tent. He embodies a "humble masculinity" in what is perceived as a high-adrenaline, hard-charging sport, but reveals that it is very much about careful consideration, insightful reflection, and balancing challenge and risk.

Sonnie speaks openly about how his attitude towards the risks climbing demands has changed as he has aged and changed his life's circumstances. Now married with two young children, he describes how he has reconciled these parts of his life and his identity. This is a crossroads that many—whether from commitment to a sport or through other circumstances of life—have faced and will relate.

The story of a unique and eye-opening adventure to the Alaskan Arctic to see how climate change has impacted land, wildlife, and indigenous culture

**INTO THE THAW:
A Quest for Wonder Amid the Arctic Climate Crisis
by Jon Waterman**

Forty years ago, author and photographer Jon Waterman took his first paddling journey into the Noatak headwaters in the Alaskan Arctic. In this fully illustrated book, he ventures once again, this time “into the thaw,” documenting the changes—both environmental and cultural—wrought by climate change. Sharing this eye-opening adventure with his son, Waterman documents the effects on altered land, wildlife and the Inuit-Inupiat life.

On the vertical and overhung sections of wall at the top, he points out the active layer of permafrost ground—replete with roots and dirt and decomposed plants—that thaws every summer. Then, below it, the colder, glossy, blackened wall of permafrost ice under active thaw. He hucks a rock at the bulletproof ice, which repels his missile without a dent. Old as the Pleistocene.

Jon Waterman found his calling as a writer while shooting photographs on expeditions more than four decades ago. Drawn to the physical challenge and peace he felt in the natural world, he continually fell short explaining this allure to others. The necessity of being fully present in the outdoors to witness beauty, and then to preserve the natural world, became essential to Jon. So he turned to writing to explain both adventure and conservation. He has also shot and written television films, including *The Logan Challenge*, *Surviving Denali*, *Odyssey Among the Inuit*, *ANWR Trek*, and *Chasing Water*. Jon is mostly known for his Northern explorations, detailed in many of his books and countless journals since 1978. Beginning in 2007, the rivers of the Southwest began to call, with an extended journey and National Geographic Society research projects. For two ambitious water and river conservation expeditions, he lectured extensively, produced a comprehensive river map and a photography exhibit, then published two books, *Running Dry* and *The Colorado River*. Jon is grateful for support and repeated funding from the National Geographic, two grants from the Walton Family Foundation, and grants from the Storer Foundation, SavetheColorado.org, the Kenney Brothers Foundation, New Belgium Brewing, Patagonia, and the Campion Foundation. He has two sons and lives in Carbondale, Colorado.

From popular comic artist Teresa Wong comes a venerable, multi-faceted story of an ordinary immigrant family and all the barriers—big and small—that keep them from having a close, meaningful relationship

ALL OUR ORDINARY STORIES
by Teresa Wong

Beginning with her mother’s stroke in 2014, Teresa Wong takes us on a moving and intimate journey through time and place to locate the beginnings of the disconnection she feels from her parents. Through a series of stories—some epic, like her mother and father’s daring escapes from communes during China’s Cultural Revolution, and some banal, like her quitting Chinese school to watch Saturday morning cartoons—Wong carefully examines the cultural, historical, language, and personality barriers to intimacy in her family, seeking answers to the questions “Where did I come from?” and “Where are we going?” At the same time, she discovers how storytelling can bridge distances and help make sense of a life.

A book for children of immigrants trying to honor their parents’ pasts while also making a different kind of future for themselves, *All Our Ordinary Stories* is poignant in its understated yet nuanced depictions of complicated family dynamics. Wong’s memoir is a heartfelt exploration of identity and inheritance, as well as a testament to the transformative power of stories both told and untold.

“I love this book with my whole heart. Every line, written and drawn, sings. In it, we find grief and tenderness, astonishing escapes and endless afterlives.” – **Madeleine Thien, author of *Do Not Say We Have Nothing***

Teresa Wong is the author of the graphic memoir *Dear Scarlet: The Story of My Postpartum Depression*, a finalist for The City of Calgary W.O. Part nature guide, part self-help column, and all love letter to the more-than-human world, *Utter, Earth* is an exercise in wonder, for animal lovers and readers of Brian Doyle, Aimee Nezhukumatathil, and Amy Leach

UTTER, EARTH:
Advice on Living in a More-than-Human World
by Isaac Yuen

A light, literary take on an animal book for grown-ups, a tongue-in-cheek self-help column with lessons drawn from nature, a sort of hitchhiker's guide to the more-than-human world—Isaac Yuen's *Utter, Earth* is a celebration, through wordplay and earthplay, of our planet's riotous wonders.

In a time of dirges and elegies for the natural world, *Utter, Earth* features odes to sloths, tributes to trilobites, and ringing endorsements for lichen. For animal lovers and readers of Brian Doyle, Aimee Nezhukumatathil, and Amy Leach, each essay of this one-of-a-kind collection combines joyous language, whimsical tangents, and scientific findings to remind us of and reconnect us with those to whom we are inextricably bound. Highlighting life that once was, still is, and all that we stand to lose, this living and lively mini encyclopedia (complete with glossary) shines the spotlight on the motley, fantastical, and astonishing denizens with whom we share this planet.

"To shoal is to be social, to sense together, we learn in one of Yuen's more-than-human essays. But to school is to sweep together in unison, to dazzle with coherence. It's this spirit of schooling that animates *Utter, Earth*, essays that—in their curiosity, play, and care—aim to weave us back into a world of which we are but one small part."
— **David Naimon, host of *Between the Covers***

"Isaac Yuen's playful, precise book will delight biologist and linguaphile alike. With persnickety glee and accuracy, he holds obscure facts of the more-than-human world up to the light in a style that's a mashup of Rachel Carson, Gary Larson, Ross Gay, David Sedaris, and David Attenborough." — **Elizabeth Bradfield, author of *Toward Antarctica***

Isaac Yuen is the creator of *Ekostories*, an award-winning essay blog that explores the power of narrative to affect lasting change. His writing can be found in *The Willowherb Review*, *Entropy*, *GulfCoast*, *Orion*, *Shenandoah*, *Tin House*, and elsewhere. Isaac's work has been nominated for a Pushcart Prize and deemed "Notable" in *Best American Science and Nature Writing*. He is an associate fiction editor with *Tahoma Literary Review* and a literary consultant with the Berlin-based Public Art Lab for the "Living Libraries for Nature Writing" project, based in the Allgäu region of southern Germany. TRAILER PARK PARABLE:

A Memoir of How Three Brothers Strove to Rise Above Their Broken Past, Find Forgiveness, and Forge a Hopeful Future by Tyler Zed

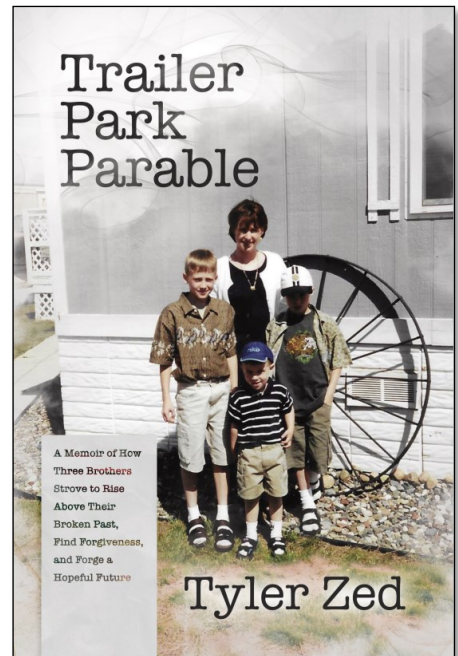

“Attempted murder victim told the Brainerd Dispatch she believes her 16-year old son saved her.”

This is the news article detailing the event that would drastically change the life of Desmond Janousek (Tyler Zed) and his family.

Growing up in a trailer park in small-town Minnesota, the Janousek household, with three boys, was full of chaotic fun—from playing hockey to building forts, to making their own home movies. It was also full of addiction and abuse that ultimately led to their father attempting to murder their mother on Christmas Eve of 2007.

Trailer Park Parable follows Desmond and his family before Christmas Eve 2007 and the events leading to that night, as well as the years after—how the boys dealt with varying degrees of PTSD and their own battles with addiction, before turning their creative coping mechanisms into million subscriber successes on YouTube.

From living in a trailer park to running their own multimillion dollar business, this story highlights a true American dream story countering a popular narrative that tells us: you may as well not even try, it’s rigged against you.
